Topic 1, Wide World Importers

Overview

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review YOUR answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in the case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Background

Wide World Importers is a family-owned importer of specialty cooking ingredients and prepackaged foods from the Mediterranean. When first established, the company's products were sold at farmers markets, All sales were on a cash-only basis.

Products are now sold locally to restaurant owners and chefs in a family-owned building with a warehouse. Products are no longer sold at farmers markets. Cash and carry sales generate most of the revenue for the company.

The founder of Wide World Importers is turning over control of the company to the younger generation in the family. These family members want to use Dynamics 365 Business Central to support their efforts to grow and diversify the business. They recently started to build a new line of business selling and shipping products to specialty retailers outside their local area through a network of brokers and representatives.

The company uses QuickBooks, but the family is concerned that QuickBooks is not capable of supporting their new business model.

There are 30 full-time and part-time employees who work in sales, purchasing, shipping, customer service, accounts payable, accounts receivable, and finance. The family does not plan to hire additional personnel to support the new line of business.

Current environment

Cash and carry sales

When a customer makes a purchase at the company's cash and carry desk, the sale is handwritten on a three-part form.

The cash and carry associate retrieves the items listed on the order from the warehouse.

Special prices and discounts are used to move products that will expire soon or that are overstocked.

Cash is accepted for payments.

The cash drawer is balanced at the end of every day. A deposit is created for the cash and given to the accountant.

Brokered sales orders

Brokered sales are called in to customer service by the brokers and sometimes directly by customers. The sales are entered into QuickBooks.

Because inventory is not tracked in QuickBooks, the generic item Brokered Item is used.

Two copies of the packing slip are printed from QuickBooks and sent to the warehouse.

Order picking

The warehouse manager provides a container and the two copies of the packing slip to a picker.

Items that are out of stock are marked on both copies of the packing slip.

The shipping amount is determined and written on the packing slips.

One copy of the completed packing slip is placed in a basket for customer service.

Completed orders are boxed up with a copy of the invoice and shipped to customers.

Order invoicing

Throughout the day, the customer service manager collects the packing slip copies and updates the invoices in QuickBooks.

The customer service manager adds a line for shipping with the amount provided by the packer.

The customer service manager prints a copy of the final invoice and sends it to the warehouse.

The accountant uses Microsoft Word to create weekly invoices for all shipments invoiced in QuickBooks during the week for some customers.

Cash and carry sales

One-line sales invoices are saved in QuickBooks for each cash and carry sale to a miscellaneous customer.

Customer details for cash and carry sales are not kept in QuickBooks.

Deposits

The accountant receives the deposit bag from the cash and carry sales desk at the end of every day.

Receipts are recorded in QuickBooks against cash and carry and brokered sales based on the deposit slips.

Brokers commission

Brokers fees are paid as a percentage of sales.

A Sales by Product/Service Summary report is run in QuickBooks every month for Brokered Item to calculate what is owned.

Requirements

Customers

Users with permission must be able to quickly add new customers.

The original source of all customers in the accounting system must be identified to be from cash and carry or brokered sales.

The company needs to keep a record of special price promotions given to specific customers.

Customers must be identified with a unique general business posting group so that the correct freight G/L account is used in sales transactions.

Sales

The customer source must be used to identify the business line, and the customer source must be indicated on every sales transactions.

Customer service and cash and carry desk associates must be able to enter sales into Dynamics 365 Business Central by customer.

Excess paper must be eliminated, and paper management must be reduced.

If a customer is not already listed in the system, a cash and carry associate or customer service associate must be able to quickly add the new customer in the process of recording the first sale.

A point-of-sale system is not needed, but users must be able to record which items are purchased by customers, accept and record their payment, and print receipts indicating paid in full.

Items

The sales manager and warehouse manager must be able to set a specific timeframe for special promotion discounts on items.

For special promotions, discounts must be consistent for all items in a product line using a single discount calculation.

Special pricing may be given to a retail chain or buying group. This pricing must be automatically applied when an order is taken for any of these customers. The original price must be recorded with each sale.

Customers must always be charged the lowest amount for an item at the time of the sale. For example, an overstocked olive oil has a regular price of \$20 per unit. Customers in a buying group for restaurants can buy it for \$18 per unit. There is an autumn promotion price for the item at \$19 per unit. However, on a specific day only, there is an overstock special at a 15 percent discount off the regular price.

Sales invoices

Warehouse workers must be able to indicate the following in the system for each order:

1. the items picked
2. the shipping charges
3. notifications, if any, that customer service needs to provide to the customer

Items sold at a discount must show the original price, discount, and net amount on each line of the invoice. Invoices must be posted at the cash and carry desk at the time of sale. For orders, accounting must post invoices and send them to customers.

Warehouse employees must be able to indicate what has been shipped on an order. They will use the G/L account for shipping charges. They need to use the correct G/L account for sales versus cost through proper assignment of sales and purchase accounts in the general posting setup.

Some of the brokered customers require one invoice per week regardless of the number of orders or shipments.

Accounts

Payment terms vary by customer.

The amount paid to brokers must be calculated from sales after invoice discounts.

Broker vendors must be easily identifiable from other vendors in lists

Commission paid on sales not collected within 120 days must be deducted from brokers' next compensation payment.

Reporting

Wide World Importers requires reporting on the following:

- the overall profitability of each line of business at any time for any given period

- the cost of outbound shipping in the overall profitability of sales by business line in all related reports

- freight sales and cost by account in the trial balance

- the cost of brokers' compensation in reporting the overall profitability of sales by business line

- the effect of item discount promotions in financial statements.

Issues

Pricing

Spreadsheets are used to maintain special item pricing and discounts. The only source of product line discount information is a whiteboard in the warehouse. The price charged is frequently incorrect.

Customers complain when they think they have not received the best price available. Promotions are sometimes applied in error after a special pricing event ends, for example, when discounts are offered temporarily to reduce overstock.

Management cannot see original versus actual price on all sales. Discounts given by brokers requires spreadsheets and comparison between price list and price on sales invoice. Management needs to be able to quickly see the discount given on each sale.

Payment terms

Agreed-upon payment terms are frequently entered incorrectly on orders, causing cashflow issues.

Invoices already paid in full exist on the sales aging reports. The frequent cause of this issue is that sales from the cash and carry desk are not indicated as cash sales and are not posted as paid in full.

Some buying groups require that all invoices sent during a month be due on the 20th of the following

month.

Invoicing

Paperwork is frequently misplaced between the warehouse, customer service, and accounting.

Invoices that are posted in the accounting system based on shipments and invoices that are sent to customers weekly do not match due to errors transferring the data from one document to another.

Users are selecting the incorrect freight type (expense versus sales) on purchase and sales transactions, making it difficult to reconcile freight costs.

Sales placed from the cash and carry desk by customers originally acquired through a broker are not being recognized with the correct customer source. Reporting by business line is inaccurate.

Accounts

Users often forget which fields to use to enter information when they add new customers to QuickBooks. This results in errors and inconsistencies in data and affects sales reporting. Confidence in sales reporting accuracy is low.

Adding new brokers is a different process than adding other purchase vendors. Users often forget which fields to select and how to correctly assign the vendor number to add new brokers.

Manual entries to certain G/L accounts cause reconciliation issues.

Question: 1

HOTSPOT

You need to report profitability by business line.

How should you configure the system? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Question: 6

DRAG DROP

You need to ensure that any transaction that uses a customer account always includes the customer **SOURCE** dimension.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Select the Search icon, enter **Chart of Accounts**, and then select the related link.

From the Dimension Code, select the Account Type Default Dimension list.

Create a dimension code to identify the customer source.

Set the Value Posting to **Code Mandatory**.

Add the Customer table.

Create dimension values for the customer source dimension code.

Select the Dimension Value Code that is used for the customer source.

Select the Search icon, enter **Customers**, and then select the related link.

Answer Area

Answer:

Explanation:

Create dimension values for the customer source dimension code

Select the Search icon enter **Chart of Accounts** and then select the related link

From the Dimension Code, select the Account Type Default Dimension list

Select the Dimension Value Code that is used for the customer source

Set the Value Posting to Code Mandatory

<https://stoneridgesoftware.com/how-to-set-up-required-dimensions-in-dynamics-365-business-edition/>

Question: 7

You need to configure the new customer creation process.

Which two areas must you configure? Each correct answer presents part of the solution

NOTE: Each correct selection is worth one point.

- A. Responsibility center
- B. Configuration worksheet
- C. Configuration template

D. Permissions

Answer: CD

Explanation:

Reference:

<https://usedynamics.com/business-central/sales/create-customer-templates/>

Question: 8

DRAG DROP

You need to design a process to resolve the broker issues for Accounts.

Which three actions should perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Actions

Create the Data template.

Define the No. Series on the configuration template.

Create a No. Series.

Configure the Vendor Table on the configuration package.

Create a configuration package.

Define the No. Series Relationships.

Define No. Series Lines.

Answer Area

Answer:

Explanation:

Create a No Series

Create the Data template

Define the No Series on the configuration template

<https://docs.microsoft.com/en-gb/dynamics365/business-central/ui-create-number-series>

<https://docs.microsoft.com/en-gb/dynamics365/business-central/admin-use-templates-to-prepare-customer-data-for-migration>

Question: 9

You need to set up payment terms for buying groups.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Set up payment terms with a value of CM+20D for the due date calculation.
- B. Assign the payment terms to the customer price group.
- C. Assign the payment terms to the customer.
- D. Assign the payment terms to the customer posting group.
- E. Set up payment terms with a value of D20 for the due date calculation.

Answer: AC

Question: 10

A customer in the restaurant buying group purchases olive oil on the date of the overstock special.

You need to verify the sales price of the product for the customer.

Which price will the system generate?

- A. \$15.30
- B. \$16.15
- C. \$17.00
- D. \$18.00

Answer: C

Explanation:

An overstocked olive oil has a regular price of \$20 per unit.

However, on a specific day only, there is an overstock special at a 15 percent discount off the regular price.

The 15% is deducted from the 'regular' price (\$20), not the special price that the restaurant buying group pay (\$18).

Question: 11

You need to configure sales invoicing.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Combine Shipments
- B. Get Shipment Lines from Sales Order
- C. Sales Order Shipping

D. Sales Order Invoicing

E. Get Shipment Lines from Sales Invoice

Answer: D, E

Explanation:

Topic 2, Case Study B Deliveries

Overview

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in the case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Background

Best for You Organics Company is a mid-sized wholesale distributor of organic produce and other food items to national retail grocery store chains. Over half the company's revenue is from produce with an average shelf life of less than a week. The remaining revenue comes from shelf-stable canned and packaged items.

Best for You Organics experienced substantial growth in the last two years. They expanded from one location to three locations, increased the number of employees from 25 to over 100, and more than doubled their revenue. The company's business forecast predicts a steady rate of growth of at least 20 percent annually for the next five years.

As a result of their expansion, Best for You Organics is experiencing delays and bottlenecks in their processes. The company has decided to implement Dynamics 365 Business Central as a new Enterprise Resource Planning (ERP) solution to increase efficiency and automation to support their continued growth.

Current environment

Deliveries

The company receives daily truckloads of products from their vendors, warehouses the products briefly, and then ships orders based on a weekly delivery cycle to each customer's store.

Customers have regular standing orders that are revised and finished one week prior to delivery.

Best for You Organics has a fleet of trucks that make deliveries according to planned routes.

The company also has a floating route for trucks to deliver rush orders. The route is being used more often by customers and has overwhelmed the warehouse with exception processing.

Duties

The company wants to provide greater separation of duties between activities in the office and activities in the warehouse.

The accounting team enters orders for the sales team, sends pick tickers back to the warehouse, and

organizes shipping documents. The accounting team invoices the orders when they receive instructions from the warehouse that an order shipped.

Employees have expressed frustration because they need to work longer hours to accommodate the increase in sales.

The company does not use the Advanced Warehousing function.

Requirements

Salespeople

Salespeople must be able to manage opportunities that are converted to quotes.

Salespeople must be able to release orders to the warehouse to be fulfilled once a quote is final.

Salespeople must be trained on how to determine if inventory is available when they are completing the quote to avoid promising inventory that is not on hand because all orders are processed one week in advance of delivery.

Team responsibilities

Deliveries must be shipped daily by employees in the warehouse. The office must be responsible for completing the invoicing process.

The current team responsibilities are shown in the following graphic:

The required team responsibilities are shown in the following graphic:

Vendor management

The company contracts with each vendor for regular discounts at the invoice level.

The company requires a pre-set discount percentage to calculate automatically when the purchaser completes a purchase order.

The company must be able to see a copy of the completed purchase order in the system when they have new contract negotiations with their vendors.

Customer and inventory management

Sales invoices must be automatically emailed by the system to customers.

A template must be used for emails sent to customers. The template must not be altered.

Customers who pre-pay their invoices must not receive a copy of their invoices.

The company warehouses all products as Case quantities. The company has difficulty recording accurate costs for product returns. The company wants to expand their capabilities for managing returns by setting up all inventory in a quantity of Each.

Reporting

The company must be able to answer two key questions when they report financial results:

Which customers are buying which items?

Which salespeople are selling in which regions?

When discussing customers, the company must refer to each Customer Group as follows:

Big Box

Franchise

Private

When discussing items, the company must refer to each Item Group as follows:

Fair Trade

Free Range

Grass Fed

Heirloom

Organic

Salesperson names that must be used are:

SalespersonA

SalespersonB

SalespersonC

SalespersonD

Region names that must be used are:

North

South

East

West

Commission

The company must be able to track salesperson performance within certain regions to calculate commission.

Each salesperson must be assigned only to a single region.

This commission data is currently recorded inconsistently, resulting in incorrect combinations that require manual correction. The company must have some level of automation to manage this.

Issues

Issue 1

The accounting team needs an improved process for reconciling inventory to the general ledger.

Posted transactions are changing financial reporting in periods that have been closed.

Unexpected changes in inventory cost for previous months are causing costing inaccuracies.

The system must restrict the adjustment of costs for closed months.

The new policy will be to restrict all users to posting in the current month only, with the exception of a few employees from the accounting team.

The calendar fiscal year for company must begin on June 1.

Issue 2

The accounting team uses a complex manual accrual process to determine the accounting impact of items received but not invoiced. The system must streamline the item accrual process.

Issue 3

The company often receives a higher quantity of produce items than what they order because vendors allow for spoilage or damage of produce in transit. The company does not want to allow over receipt on non-produce items.

Issue 4

The company has received comments from their auditors that invoices are not being properly compared to received inventory documents before they are posted. The company does not use warehouse management and always handles processes directly from the purchase order. The company always has the following documents:

purchase order from the procurement department

receiving document from the warehouse

electronic invoice from the vendor

Question: 12

HOTSPOT

You need to configure reporting.

What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement

Action

Set up dimensions

Create a new entry on Dimensions
Select a dimension on Sales & Receivables Setup

Question: 15

DRAG DROP

You need to configure the purchase order process to meet the auditor's requirements.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Run a Test Report

Add Items, including Quantity, to the lines

Select Post and Invoice

Create a warehouse receipt

Add a vendor

Change the Purchase Order to a Status of Released

Select Post and Receive

Add a Purchaser Code

Answer:

Explanation:

Change the Purchase Order to a Status of Released

Create a warehouse receipt

Add Items, including Quantity, to the lines

Select Post and Receive

Question: 16

You need to configure the system to meet the requirements for received items.
What should you do?

- A. Set the default costing method to Standard
- B. Turn on Automatic Cost Posting
- C. Turn on Expected Cost Posting
- D. Set the value of the Automatic Cost Adjustment option to Always

Answer: C

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/design-details-expected-cost-posting>

Question: 17

You need to enforce restrictions for salespeople and regions to meet the requirements for Commission.

What should you do?

- A. Set Salesperson and Region dimensions to Limited.
- B. Assign Default Dimension Priorities to list Salesperson first.
- C. Set the dimension combination between the Salesperson and the Region to Blocked.
- D. Add Default Dimensions for Salesperson on Customer Cards.

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/finance-dimensions>

Question: 18

You need to configure the system to meet the requirements for sending invoices.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Set Email to Yes (Use Default Settings).
- B. Allow Sender Substitution for SMTP Mail Setup.
- C. Set Email to Yes (Prompt for Settings).
- D. Assign a Document Sending Profile to the Customer where Email is set to No.
- E. Apply Office Server Settings to the SMTP Mail Setup.
- F. Assign a Document Sending Profile to the Customer where Email is set to Yes.

Answer: AEF

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-setup-document-send-profiles>

Question: 19

You need to set up units of measure for an item to meet the requirements.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Set a Unit of Measure for case to a Qty. of 10.
- B. Set a Qty. per Unit of Measure to 1 in the Item Units of Measure table.

C. Set a Unit of Measure for case to a Qty. of 1.

D. Add a Code and Description to the Units of Measure table.

Answer: AD

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/inventory-how-setup-units-of-measure>

Question: 20

DRAG DROP

You need to advise the company on how to process existing sales orders.

Which three actions should you recommend be performed in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

A warehouse employee performs Post and Ship.

A warehouse employee performs Post, Ship, and Invoice.

A warehouse employee performs Post and Invoice only.

An office employee adds an External Document No. to the Sales Order.

A warehouse employee changes the Posting Date to match the actual shipping date.

An office employee performs Post and Invoice only.

An office employee performs Post, Ship and Invoice.

Answer

Explanation:

A warehouse employee performs Post and Ship.

An office employee adds an External Document No. to the Sales Order.

An office employee performs Post and Invoice only.

Reference:

<https://docs.microsoft.com/en-us/learn/modules/ship-invoice-items-dynamics-365-business-central/1-ship>

<https://docs.microsoft.com/en-us/learn/modules/ship-invoice-items-dynamics-365-business-central/2-invoice>

Question: 21

You need to configure the system for receiving produce from the vendors.

What should you do?

- A. Configure an Over-Receipt code with Tolerance percentage.
- B. Set up a Payment Tolerance percentage.

C. Apply a Default Deferral template.

D. Set the Dampener Quantity to a value greater than zero.

Answer: A

Explanation:

Reference:

Question: 23

DRAG DROP

You need to configure the system to address the costing adjustment concerns.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create an inventory revaluation journal.

Run the Adjust Cost – Item Entries batch job.

Set up inventory periods.

Run Post Inventory Cost to G/L.

Set up accounting periods.

Close the inventory period.

Close the accounting period.

Answer Area

Answer:

Explanation:

Set up inventory periods.

Run the Adjust Cost – Item Entries batch job.

Run Post Inventory Cost to G/L.

Close the inventory period.

Topic 3, Northwind Traders

Overview

Northwind Traders is an independent, family-owned business. The company distributes natural pet products in the Northwest region of the country/region. Products are purchased directly from manufacturers and distributed by using its own fleet of trucks.

When the company started, deliveries were within a three-hour radius of the warehouse. Due to regional

growth, current deliveries require drivers to stay overnight on some routes. The company plans to open a second warehouse to expand the region and eliminate overnights for route drivers. The company also plans to hire a second group of employees to run operations in this new location. The finance and accounting teams will remain in the original location.

The company uses a third-party system for financials and order management. The finance department stated that the company's fiscal year begins on July 1 and ends on June 30. The mm/dd/yyyy date format is used.

As part of the expansion, the owner plans to upgrade to an ERP system and use Business Central to fulfill the company requirements and manage growth.

Orders

- Orders are emailed to customer service and manually keyed into the inventory system.

Pricing and discounts

- Customer pricing is determined by the customer market type. Customer market types are Retail, Veterinarian, and Breeder. Each customer is associated with only one market type.
- Vendors offer monthly promotions to customers by item, brand, or item category.
- Invoices should show each customer's base price, the discount amount, and the net price.

Accounts payable

- The company wants to expand vendor payment options in the new system.

Customers

- The sales team must be able to do the following:
 - o Quickly set up new customers with the proper settings based on customer type.
 - o Identify customers by market type. Customer posting groups will be used to identify which market the customer belongs to.
- Base price is determined by the customer market type.
- The sales department should receive a warning when entering the order if a customer is over their credit limit.

Sales

- Customer discounts are offered for specific time frames by item, brand, or product category. Discounts should be added to sales lines automatically.
- Discounts must post to a unique general ledger (G/L) account.

- The business needs to be able to track revenue by location, market, and product category dimensions.

Locations 100 and 200 will be set as default dimensions on the two warehouse locations. Food, treats, toys, and supplies are the required product categories, which will be set as default dimensions on the item cards.

Each customer card will have a default market dimension.

- The sales manager wants to delete canceled orders and automatically archive them.

Warehouse

- Orders will be fulfilled from two possible warehouse locations.
- Product will be transferred between locations by using transfer orders.

Sales invoices

- Invoices will be posted after delivery.
- Invoices will be emailed to the customer.
- The sales department must be able to quickly correct posted invoices for the following scenarios:
 - o Posted invoices that have not been paid
 - o Posted invoices that have been paid.
 - o Posted invoices created from sales orders.
 - o Posted invoices not created from sales orders.

Accounting

- The finance department requires that the company has 12 monthly accounting periods per fiscal year.
- Finance department users must be able to reconcile the accounts receivable (AR) subledger to the G/L account at month end.
- AR department users need the ability to settle and close invoices when customers take payment discounts after the payment discount date has passed. AR users should be allowed to accept or reject the payment tolerance.
- Accounts payable (AP) department users must be able to pay vendors by electronic funds transfer (EFT) and use a payment journal batch named EFT to process payments.
- When viewing G/L entries, the finance and accounting teams must be able to see debits and credits instead of a positive or negative amount.
- The company needs to be able to track expenses by department and location. The departments are sales, operations, and administration.

- AR must be able to correct cash application entries.

Question: 24

You need to configure Business Central to display G/L entries as required by the accounting team.

Which configuration should you use?

- A. Debit/Credit
- B. Show Amounts
- C. Check G/L Account Usage
- D. G/L Account Card

Answer: B

Explanation:

Question: 25

DRAG DROP

You need to configure Business Central to meet the requirements of the sales department. What should you configure for each setup area? To answer, drag the appropriate configurations to the correct sales and receivables setup. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Question: 26

You need to train the Accounts Receivable (AR) department how to correct customer payment application issues.

What are two possible ways to achieve this? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Unapply entries from the customer card.
- B. Apply entries from the Detailed Customer Ledger Entries page.
- C. Unapply entries from the customer ledger entries.
- D. Unapply entries from the detailed customer ledger entries

Answer: A, D

Explanation:

Question: 27

You need to set up customer sales pricing based on the requirements.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign the Customer Price Group code on the customer card.
- B. Create Customer Price Groups that exclude line discounts.
- C. Create a Sales Price List by using the assign-to type of Customer Price Group.

D. Create a Sales Price List for the customer by using the customer assign-to type.

E. Create Customer Price Groups that allow line discounts.

Answer: A, B, C

Explanation:

Question: 28

You need to resolve the issue reported by the AR users from the finance department.

What should you do?

- A. Switch Blocked on the Customer Card to Yes.
- B. Switch Direct Posting on the G/L Account Card to Yes.
- C. Switch Blocked on the G/L Account Card to Yes
- D. Switch Direct Posting on the G/L Account Card to No

Answer: D

Explanation:

Question: 29

HOTSPOT

You need to configure retail store customer cards to track revenue by market.

Which configuration should you use? To answer, select the appropriate option in the answer area.

Question: 30

DRAG DROP

You need to train the sales department how to correct posted sales invoices.

Which action should you use for each scenario? To answer, drag the appropriate actions to the correct scenarios. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Actions:

- Correct
- Sales return order
- Create corrective credit memo

Answer Area

Scenario

- Use this action when the posted invoice has not been paid and the original invoice was posted from a sales order,
- Use this action when the posted invoice has not been paid and the original invoice was not posted from a sales order
- Use this action when the posted invoice has been paid and warehouse documents are not required.

Action

Answer

Explanation:

Actions:

- Cancel
- Correct
- Sales return order
- Create corrective credit memo

Answer Area

Scenario

- Use this action when the posted invoice has not been paid and the original invoice was posted from a sales order,
- Use this action when the posted invoice has not been paid and the original invoice was not posted from a sales order.
- Use this action when the posted invoice has been paid and warehouse documents are not required

| Correct

| Cancel

Create corrective credit memo |

Background

Fabrilcam. Inc.. is a manufacturer of products for the gift industry. The company plans to implement Business Central as its new enterprise resource planning (ERP) system.

The company sells to two types of customers: wholesale and retail. Retail customers order at special events and online. Wholesale customers send in orders by email.

Current Environment

Order processing

- The company uses a purchase order (PO) workflow for any PO over 1500
- The system has been fully configured for sales order prepayments and will check for a prepayment invoice at posting.
- Customers can special order products with a prepayment that is due on receipt.

Invoicing

- Wholesale customer payment terms are net 30. with a 2% discount if paid within 10 days.
- Retail customer payment terms are payable on receipt or shipment

Reporting

- The company uses headcount (number of employees) and square footage for statistical accounts.

Integrations

The company currently uses Outlook, Excel. Word, and Teams to communicate internally and externally with customers and vendors.

Requirements

Order processing

- The company must be able to combine multiple purchase receipts into one vendor invoice.
- Posted vendor invokes must be reverted when damages are reported or a product is returned to the vendor.
- Fully invoiced POs must not appear on the PO list page
- Customer prepayments vary based on customer relationship. Special orders from new customers

have a 25% prepayment. Established customers have only a 15% prepayment.

- The company must be able to approve POs by email without opening Business Central.
- Customers often reorder the same items with similar quantities. The system must be configured to ask the user if recurring lines should be added to sales orders.

Invoicing

- Customer revenue must be posted to separate general ledger (G/L) accounts based on customer type. The G/L account must have subcategories for wholesale and retail revenue.
- Accounts receivable must be posted to separate G/L accounts based on customer type. The G/L account must have subcategories for wholesale and retail accounts receivable.
- Currently, Inventory is sold at a cost based on purchase and sales over a period.

Reporting

- Financial reports must include statistical accounts.
- The financial report structure must map to account categories.

Integrations

The company requires the following integration capabilities:

- Create sales orders while collaborating with customers by email.
- Edit customer information while messaging the sales team in a group chat.
- Communicate a brochure to all customers at once about a sales campaign.

General ledger posting accounts

The company requires the following G/L posting accounts:

- Retail Receivables = 13100
- Wholesale Receivables = 13200
- Payment Discount = 54800
- Retail Sales = 44100
- Wholesale Sales = 44200 Sales Prepayments = 22160

Issues

- Order entry takes too long for wholesale customers.

- Vendors ship partial orders but send one monthly invoice. The company is unable to associate one invoice with multiple POs in the current environment
- Inventory reconciliation was difficult in the company's old system because it allowed users to sell more inventory than was physically available.
- Users must log in to the system to provide workflow approvals.

Question: 31

HOTSPOT

You need to recommend integration solutions to fulfill the company requirements.

Which Microsoft integration aligns with each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Customer requirement	Integration
Customer email collaboration	☐ Business Central Outlook add-in ☐ Business Central Outlook add-in ☐ Business Central app for Teams ☐ Word template ☐ Power Automate
Sales team collaboration	☐ Business Central app for Teams ☐ Business Central Outlook add-in ☒ Word template ☐ Power Automate
Customer notifications for sales campaign	☐ Power Automate ☐ Business Central Outlook add-in ☐ Business Central app for Teams ☐ Word template

Answer:

Explanation:

Business Central integrations with other products

Customer requirement	Integration
Customer email collaboration	Business Central Outlook add-in *
Sales team collaboration	Business Central app for Teams
Customer notifications for sales campaign	Power Automate

Question: 32

HOTSPOT

You need to select the values for the customer payment terms.

Which values should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Payment term setup

Customer payment term

Question: 35

You need to configure posting groups to post revenue per invoicing requirements. Which two groups should you use? Each correct answer presents part of the solution. NOTE; Each correct selection is worth one point.

- A. general business posting groups
- B. customer posting groups
- C. general product posting groups
- D. bank account posting groups
- E. inventory posting groups

Answer: B, C

Explanation:

Question: 36

DRAG DROP

You need to resolve the order entry issue.

How should you complete each action? To answer, move the appropriate recurring sales line configurations to the correct actions. You may use each recurring sales line configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Recurring sales line configurations

- Add items and quantities.
- Add valid from and to dates.
- Set insert on orders to Always Ask.
- Set insert on quotes to Automatic.

Create recurring sales

Action

- Configure standard sales lines.
- Add recurring sales lines to customers.

Recurring sales line configuration

Answer:

Explanation:

Recurring sales line configurations

⌵ Add items and quantities.
⌵ Add valid from and to dates.
⌵ Set insert on orders to Always Ask.
⌵ Set insert on quotes to Automatic.

Action^

Create recurring sales

Configure standard sales lines.

Add recurring sales lines to customers

Set insert on quotes to Automatic

Question: 37

You need to train users on order processing requirements and how to process purchase invoices created from combined receipts. Which two related processes should you include? Each correct answer presents a complete solution. NOTE; Each correct selection is worth one point.

- A. Create a purchase credit memo.
- B. Correct or cancel unpaid purchase invoices.
- C. Delete POs that are fully invoiced.
- D. Create recurring purchase lines.

Answer: B, C

Explanation:

Question: 38

DRAG DROP

You need to train users on how to process a special order for an established customer.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order

NOTE More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Actions

S Post and print the invoice.

S Enter 25 in the Prepayment % field

3 Enter the code for net 30 in the prepayment payment terms code.

!! Orate a solei order

:: Inter 1b in the Prepayment % field

.. Enter the code for due on receipt in the prepayment

** payment ter ms code.

?? Post and print tn* prafuymant trvvn^o

Process prepayment invoice on sales order

Answer:

Explanation:

Actions

Post and print the invoice.

Enter 25 in the Prepayment % field.

Enter the code for net 30 in the prepayment payment terms code.

Process prepayment invoice on sales order

1 Create a sales order.

2 Enter 15 in the Prepayment % field.

3 Enter the code for due on receipt in the prepayment payment terms code.

4 Post and print the prepayment invoice.

Question: 39

HOTSPOT

You need to complete inventory setup in Business Central to meet requirements and resolve issues.

Which two inventory setup configurations should you use? To answer, select the appropriate options in the answer area.

Inventory setup

Inventory setup action

Set the default costing method

Resolve Inventory reconciliation Issue

Configuration

FIFO

Average

FIFO

Question: 40

You need to configure workflows to meet the order processing requirements of the company. Which two solutions should you use? Each correct answer presents part of the solution. NOTE; Each correct selection is worth one point.

- A. Create a purchase order approval workflow.
- B. Create a purchase invoice approval workflow.
- C. Use Business Central as the engine for the workflow.
- D. Use Power Automate as the engine for the workflow.

Answer: A, D

Explanation:

Topic 5, Misc. Questions

Question: 41

You configure a cloud-based printer in Dynamics 365 Business Central.

Purchase orders printed by users must automatically print to the cloud-based printer.

You need to create a setup record for the user, report, and printer combination.

On which page should you create the setup record?

- A. Printer Selections

B. Printer Management

C. Report Layout Selection

D. Report Selection – Purchase

E. Document Sending Profiles

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/ui-specify-printer-selection-reports>

Question: 42

You are implementing Dynamics 365 Business Central Online.

Users must be added to Business Central for the first time.

You need to add the users.

Which action should you use?

A. Get New Users from Office 365

B. Create a new entry on the User Setup page

C. Update Users from Office 365

D. Import User Groups

Answer: A

Explanation:

Reference:

<https://dankinsella.blog/add-user-in-business-central-cloud/>

Question: 43

DRAG DROP

You set up a new company for a customer.

The customer provides you with a Microsoft Excel file that contains master data.

You need to import the master data by using configuration packages.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

- Import a populated Excel template into the sales header and lines
- Import a populated Excel template into the package data
- Export a configuration package
- Apply the data
- Create a configuration package
- Export an Excel template and populate the data

Answer:

Explanation:

- 1) Create a configuration package
- 2) Export an Excel template and populate the data
- 3) Import a populated Excel template into the package data
- 4) Apply the data

Question: 44

DRAG DROP

You are setting up approval workflows in Dynamics 365 Business Central.

You need to configure approval limits.

Which approver limit types should you use? To answer, drag the appropriate approver limit types to the correct requirements. Each approver limit type may be used once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Approver limit types

Direct approver

Specific approver

First Qualified approver

Approver Chain

Answer Area

Requirement

Route approval requests to the approver defined in Approval User Setup, regardless of the amount.

Route approval requests to the approver defined in the Workflow Response, regardless of the amount.

Route approval requests to a user who can approve requests for the required amount.

Approver limit type

Approver limit type

Approver limit type

Approver limit type

Answer:

Explanation:

Question: 45

A company uses Dynamics 365 Business Central.

The company wants to print financial statements by using a cloud-based printer.

You need to recommend the type of printer the customer should install.

Which type of printer should you recommend?

- A. Email
- B. System
- C. Client default
- D. Server default

Answer: A

Explanation:

Question: 46

You create a test instance of Dynamics 365 Business Central and enter transactions for testing purposes. You create a production company instance in the same Business Central environment.

You need to copy the setup and master data from the test instance to the production instance **without** copying transaction data.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use the Run Migration Now function from Cloud Migration Management
- B. Create and export a configuration package from the source company. Next, import into the **destination company**
- C. Use the Copy Data from Company function from the Configuration Worksheet page
- D. Use the Copy function from the Companies page

Answer: BD

Explanation:

Question: 47

DRAG DROP

You are creating companies for multiple customers in the cloud-based version of Dynamics 365 Business Central by using the assisted setup guide.

You need to create new companies.

Which templates should you use? To answer, drag the appropriate templates to the correct requirements. Each template may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Templates

Answer Area

Create New	Requirement	Template
Create a company that has setup data and sample data. Template Evaluation		
Production	Create a company that does not have setup data.	Template
	Create a blank company that has setup data but does not have sample data.	Template

Answer:

Explanation:

Requirement	Template
Create a company that has setup data and sample data.	Evaluation
Create a company that does not have setup data.	Create New
Create a blank company that has setup data but does not have sample data.	Production

Question: 51

Monetary amounts for local currency must always display three decimal places.

In General Ledger Setup, you need to configure the appropriate setup field with the appropriate value.

What should you do?

- A. Set the value of Amount Decimal Places to 3:3
- B. Set the value of Unit-Amount Decimal Places to 3:3
- C. Set the value of Inv. Rounding Precision to 0.001
- D. Set the value of Unit-Amount Rounding Precision to 0.001
- E. Set the value of Amount Rounding Precision to 0.001

Answer: A

Explanation:

The two threes in 3:3 mean a minimum of three decimal places and a maximum of 3 decimal places. In other words, it will always display three decimal places.

Question: 52

HOTSPOT

A bank is implementing Dynamics 365 Business Central.

Each bank account must be configured to a unique G/L Account.

You need to set up the first bank account.

Question: 54

The general ledger account for accounts receivable must match the sum of all balances on the customer cards.

You need to set up the general ledger account card for accounts receivable to meet this requirement.

Which configuration should you use?

- A. Configure Totaling.
- B. Disallow direct posting.
- C. Configure the account type.
- D. Block the account card.

Answer: B

Explanation:

Question: 55

HOTSPOT

A company uses Dynamics 365 Business Central.

The company wants to automate sales credit memo processing.

You need to configure the system to meet the requirements.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirements	Action
Ensure that the costs on credit memos match the costs from the originating invoice.	Select Exact Cost Reversing Choose a No. Series for Posted Credit Memo Nos. Choose Yes to Archive Return Orders Add a Sales Credit Memo Account in General Posting Setup
Process the receipt of a return at the same time the credit memo is posted.	Select Return Receipt on Credit Memo Select Shipment on Invoice Choose Skip Manual Reservation Choose Blank for Default Quantity to Ship
List a default quantity of one on the credit memo lines.	Choose Yes for Default Item Quantity Choose Remainder for Default Quantity to Ship Choose No for Default Item Quantity Choose Blank for Default Quantity to Ship

Answer:

Explanation:

Requirements

Action

Ensure that the costs on credit memos match the costs from the originating invoice.

Select Exact Cost Reversing Mandatory
Choose a No.Series for Posted Credit Memo Nos
Choose Yes to Archive Return Orders
Add a Sales Credit Memo Account in General Posting Setup

Process the receipt of a return at the same time the credit memo is posted.

Select Return Receipt on Credit Memo
Select Shipment on Invoice
Choose Skip Manual Reservation
Choose Blank for Default Quantity to Ship

List a default quantity of one on the credit memo lines.

Choose Yes for Default Item Quantity
Choose Remainder for Default Quantity to Ship
Choose No for Default Item Quantity
Choose Blank for Default Quantity to Ship

Question: 56

DRAG DROP

You are implementing Dynamics 365 Business Central. The accounting manager of the company provides you with the chart of accounts.

You need to set up specific posting groups according to the chart of accounts.

Which setup should you use? To answer, drag the appropriate setup to the correct action. Each setup may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Question: 57

An accounting manager provides you with a chart of accounts.

The accounting manager wants you to configure the General Posting Setup.

You need to complete the configuration as efficiently as possible.

What are three ways to complete the configuration? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use the Copy action to create a new General Posting Setup Card
- B. Import a configuration package that contains the General Posting Setup

- C. Use the Suggest Accounts action to create all possible posting setup combinations
- D. Create a new General Posting Setup Card, and then use the Suggest Accounts action
- E. Create a new General Posting Setup Card, and then use the Copy action

Answer: BDE

Explanation:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/purchasing-how-record-purchase-pricediscount-payment-agreements>

Question: 60

You are implementing Dynamics 365 Business Central for a customer who has two warehouses.

The customer requires the following:

different item pricing and vendors set up for items in each warehouse

transactions tied to a specific location

You need to configure Business Central per the customer requirements.

Which three entities should you configure? Each correct answer presents part of the solution?

NOTE: Each correct selection is worth one point.

- A. Inventory setup
- B. Warehouse setup
- C. Stockkeeping units
- D. Item card
- E. Locations

Answer: BCD

Explanation:

Reference:

<https://usedynamics.com/business-central/inventory/items-using-sku/>

Question: 61

You are implementing Dynamics 365 Business Central.

You use infinite items such as water, electricity, and natural gas.

You need to set up the items.

Which item type should you use for infinite items?

- A. Resource
- B. Inventory
- C. Service
- D. Non-Inventory

Answer: D

Explanation:

Reference:

<https://dynamicsuser.net/nav/b/peik/posts/using-infinite-components-in-a-dynamics-365-bc-production>

Question: 62

A company uses Dynamics 365 Business Central.

A customer requests that the company always use their preferred shipping provider for all sales orders.

You need to configure the system to meet this requirement.

What should you do?

- A. Select Shipping Advice
- B. Define a shipping agent
- C. Set up a Ship-to code
- D. Designate a Responsibility center

Explanation:

Answer: B

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-to-set-up-shipping-agents>

Question: 63

You are implementing Dynamics 365 Business Central for a customer.

The customer wants to manually add many similar items.

You need to help the customer create copies of existing items.

Which three actions must be performed? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. On the Set up Customer/Vendor/Item Templates page, create a new item template
- B. Open an existing item, and then click the Save as Template action on the item card
- C. On the Set Up Customer/Vendor/Item Templates page, edit the information in the newly created item template
- D. On the Configuration Templates page, create a new template for item table
- E. Create a new item, and then select the new template name to copy the information to the item

Answer: BCE

Explanation:

Reference:

<https://usedynamics.com/business-central/product-dev/item-templates/>

Question: 64

DRAG DROP

You are configuring Dynamics 365 Business Central for a company.

You need to create items.

Which item types should you use? To answer, drag the appropriate item types to the correct scenarios. Each item type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Item types

All
Inventory
Non-Inventory
Service

Answer Area

Scenario	Item type
The item may be transferred between locations.	Item type
The item can be used in assembly consumption, but the quantity is not tracked.	Item type
Item will be used in sales transactions.	Item type

Answer:

Explanation:

Scenario

Item type

The item may be transferred between locations.

Inventory

The item can be used in assembly consumption, but the quantity is not tracked.

Non-Inventory

Item will be used in sales transactions.

All

Question: 65

You are implementing Dynamics 365 Business Central Online.

You receive a comprehensive price list from the customer. The customer wants you to set up the best price

feature for sales by using the standard discount and pricing functionality in Business Central.

You need to set up this feature.

Which three components are part of the best price calculation feature? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Unit cost on items
- B. Sales Line Discounts
- C. Discount Groups
- D. Special Prices
- E. Unit prices on items

Answer: BCD

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/business-central/sales-how-record-sales-price-discount-payment-agreements?tabs=current-experience>.

Question: 66

DRAG DROP

You complete Payment Registration setup. The following options are enabled:

Use this account as default

Auto Fill Date received

You need to process a single full payment from a customer against the amounts due for two invoices by using customer payment registration.

What four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

In the Date Received field, enter the date when the payment was made

In the Amount Received field, enter amounts

Select the Payment Made option for

Open Payment Registration

Select Post Payments

Select the Payment Made option for lines that represent the first invoice

Select Post As Lump Payment

lines that represent the second invoice

®

Question: 67

You need to configure Dynamics 365 Business Central to allow for receipt of quantities of items greater than the quantity ordered.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Configure a maximum order quantity for the item
- B. Configure a maximum inventory level for the item
- C. Set up and select an over-receipt code in the item record
- D. Set up and select an over-receipt code in the vendor record

Answer: CD

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/warehouse-how-receive-items>

Question: 68

DRAG DROP

You have multiple, unpaid posted purchase invoices to reverse. Some invoices require complete reversal while others need partial reversal.

You need to process credit memos from the posted purchase invoices.

Which actions should you perform? To answer, drag the appropriate actions to the correct requirements.

Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Actions

Cancel

Correct

Create Corrective Credit Memo

Answer Area

Question: 69

DRAG DROP

A company uses Dynamics 365 Business Central.

The company's funds are limited and some invoices that are due cannot be paid on time.

You need to prioritize vendors when you suggest vendor payments.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Select Summarize per Vendor when you run the Suggest Vendor Payments batch job.

Set Vendor Priority on the Vendor card using the lowest number, except zero, for the highest priority.

Select Use Vendor Priority when you run the Suggest Vendor Payments batch job.

Filter by Vendor Priority when you run the Suggest Vendor Payments batch job.

Set Vendor Priority on the Vendor Card using the highest number for the highest priority.

Enter Available Amount (LCY) when you run the Suggest Vendor Payments batch job.

Answer:

Explanation:

Set Vendor Priority on the Vendor card using the lowest number, except zero, for the highest priority.

Enter Available Amount (LCY) when you run the Suggest Vendor Payments batch job.

Select Use Vendor Priority when you run the Suggest Vendor Payments batch job.

<https://docs.microsoft.com/en-us/learn/modules/suggest-vendor-payments-dynamics-365-business-central/2-priority>

Question: 70

You have a Microsoft Excel file that includes journal entry data that must be imported into Dynamics 365 Business Central. This file was previously imported into a General Journal batch.

You receive an updated version of the file that includes corrections, deletions, and new journal entries.

Which three actions can you perform by using the Edit in Excel feature? Each correct answer presents a

complete solution.

NOTE: Each correct selection is worth one point.

- A. Modify an existing line in a General Journal batch
- B. Insert a new line in a General Journal batch
- C. Post one or more lines in a General Journal batch
- D. Request Approval for one or more lines in a General Journal batch
- E. Delete an existing line from a General Journal batch

Answer: A, E

Explanation:

Question: 71

A user reports that they cannot create or view sales quotes in Dynamics 365 Business Central.

You need to help the user create and view sales quotes.

From which three cards can the user perform the required activities? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Service Item
- B. Opportunity
- C. Job
- D. Resource
- E. Customer
- F. Contact

Answer: BEF

Explanation:

Question: 72

DRAG DROP

You are implementing Dynamics 365 Business Central for a company.

The company must perform inventory valuation according to the following business rules:

Use the first in, first out (FIFO) costing method for all items.

Include received items that are not yet invoiced on balance sheets.

Lock inventory value by closing the month.

You need to recommend a process for the company's accounting department to use.

Which three actions should you recommend be performed in sequence? To answer, move the

appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Perform the Post Inventory Cost to G/L batch job

Close the inventory period

Include Expected Cost on the Inventory Valuation report

Perform the Adjust Cost - Item entries batch job

Update Standard Cost

Answer:

Explanation:

Perform the Adjust Cost - Item entries batch job

Perform the Post Inventory Cost to G/L batch job

Close the inventory period

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/finance-how-to-work-with-inventory-periods>

Question: 73

DRAG DROP

The accounts payable department of a company processes purchase invoices throughout the month. A vendor sends an invoice at the end of each week that combines all deliveries.

The company wants to know how to process this invoice.

You need to explain the steps involved in purchase invoicing.

In which order should the steps be performed? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Create a new purchase invoice for the vendor and use the Get Receipt Lines action.

Delete fully invoiced purchase orders.

On the purchase invoice lines, make the necessary adjustments for example regarding received quantity or prices.

From the purchase order, post receipts for the items

Post the purchase invoice

Answer:

Explanation:

Create a new purchase invoice for the vendor and use the Get Receipt Lines action.

On the purchase invoice lines, make the necessary adjustments for example regarding received quantity or prices.

From the purchase order, post receipts for the items

Post the purchase invoice

Delete fully invoiced purchase orders.

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/purchasing-how-to-combine-receipts>

Question: 74

DRAG DROP

You are a functional consultant working on purchase returns in Dynamics 365 Business Central.

A customer orders 100 pieces of an item from a vendor. After receiving them into inventory and posting the invoice, the customer determines that only 50 pieces are needed.

You create a purchase return order to return 50 pieces of the item. The vendor has authorized the return.

You need to apply the return to the original purchase.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Post the purchase return order

Set the purchase return order's item line Quantity to 50 pieces

Set the Document Type filter to Posted Invoices and select the correct line

Run the Copy Document... function

Run the Get Posted Doc... to Reverse... function

Enable the Return Original Quantity option

Enable the Show Reversible Lines Only option

00

Answer:

Explanation:

Run the Get Posted Doc... to Reverse... function

Enable the Show Reversible Unes Only option

Set the Document Type filter to Posted Invoices and select the correct line

Set the purchase return order's item line Quantity to 50 pieces

Post the purchase return order

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/purchasing-how-process-purchase-returns-cancellations#to-create-a-purchase-return-order-based-on-one-or-more-posted-purchase-documents>

Question: 75

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are implementing Dynamics 365 Business Central for a company. The company provides subscription services to their customers. The subscription invoices are almost identical each month.

The company wants to set up recurring sales lines for subscription invoices.
You need to create systems for creating subscription invoices.

Solution: Create a blanket order. Add the necessary lines to the blanket order. Create the monthly sales order. Then, create the invoice.

Does the solution meet the goal?

A. Yes

B. No

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-work-standard-lines>

Question: 76

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are implementing Dynamics 365 Business Central for a company. The company provides subscription services to their customers. The subscription invoices are almost identical each month.

The company wants to set up recurring sales lines for subscription invoices.

You need to create systems for creating subscription invoices.

Solution: Create a new recurring sales line. Open the relevant customers and attach the Recurring Sales Lines code to the customer. Then, run the Create Recurring Sales Invoices batch to create the invoices.

Does the solution meet the goal?

A. Yes

B. No

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-work-standard-lines>

Question: 77

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are implementing Dynamics 365 Business Central for a company. The company provides subscription services to their customers. The subscription invoices are almost identical each month.

The company wants to set up recurring sales lines for subscription invoices.

You need to create systems for creating subscription invoices.

Solution: Create a sales quote for each customer. Add the sales lines to the quote. Then, use the Copy Document feature to create a new invoice.

Does the solution meet the goal?

A. Yes

B. No

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-work-standard-lines>

Question: 78

You are implementing Dynamics 365 Business Central for a customer.

The customer wants to upload starting entries for all master data through a general journal on the last day of the current month.

You need to upload the data according to this requirement.

Which three functions should you select? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Vendors Opening balance
- B. G/L Accounts Opening balance
- C. Calculate Inventory
- D. Get Standard Journals
- E. Customers Opening balance

Answer: ABE

Explanation:

Question: 79

You are setting up and testing a workflow with approval hierarchy in Dynamics 365 Business Central.

In Approval User Setup, you configure the following users:

User	Approval limit	Comments
User1	\$500	
User2	\$1,000	
User3	\$5,000	
User4		User4 is configured as a direct approver for User1.

You create and enable an approval workflow. You configure the workflow to use the approver limit type Approver Chain.

To test the workflow, User1 creates a purchase order for \$1,100 and runs the Send Approval Request function.

You need to identify the actions that occur when the workflow runs.

Which set of actions occurs?

A. User4 will receive an approval request.

Once approved, the purchase order is released.

B. User3 receives an approval request.

Once User3 approves the request, the purchase order is released.

C. User2 will receive an approval request.

Once User2 approves the request, User3 will receive an approval request.

Once User2 and User3 approve the request, the purchase order is released.

D. User1 will receive an approval request.

Once User1 approves the request, User2 must approve the request.

Once User2 approves the request, User3 must approve the request.

Once User3 approves the request, the purchase order is released.

E. User3 will receive an approval request.

Once User3 approves the request, the request is routed to User4 for approval.

Once User4 approves the request, the purchase order is released.

Answer: C

Question: 84

A company is implementing Dynamics 365 Business Central.

The company needs to post monthly general journal batches for purchase expenses incurred throughout the month. The posted entries must have unique incremental document numbers. The numbers must increment by one and be sequential.

You need to configure the system to meet the requirements.

Which three actions should you perform in sequence? Each correct answer presents part of the solution.

- A. Create a Template Batch with Posting No. Series.
- B. Create the No. Series.
- C. Configure a General Journal with Purchase Reason Code.
- D. Configure a General Journal Template with Purchase Type.
- E. Create a Template Batch with No. Series.

Answer: BCE

Explanation:

Question: 85

DRAG DROP

An accountant discovers inconsistencies between financial statements and balances in the chart of accounts.

You suspect that the discrepancies might be a result of missing categories and subcategories.

You need to ensure that the financial statements match the chart of accounts.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Create subcategories for each category.

Rename the general ledger account to match the category and subcategory in the chart of accounts.

Verify that the financial statements match the chart of accounts.

Add the accounts to the analysis view.

Add the missing categories and subcategories to the general ledger accounts.

Answer:

Explanation:

Create subcategories for each category.

Add the missing categories and subcategories to the general ledger accounts.

Verify that the financial statements match the chart of accounts.

Question: 87

HOTSPOT

You are implementing Dynamics 365 Business Central.

You are creating an expense account for office supplies in the chart of accounts. The account may be used for purchase invoice transactions as well as general journal transactions.

You need to configure the remaining options for the account.

Which values should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Account option	Value
Account Category	Expense Cost of Goods Sold Income Liabilities
Income / Balance	Balance Sheet Income Statement
Direct Posting	Yes No

Answer:

Explanation:

Expense, Income Statement and Direct Posting Yes

Question: 88

HOTSPOT

You are implementing Dynamics 365 Business Central for a customer. The local currency code (LCY) for the company is set to US dollars (\$).

The customer plans to set up a bank account. The customer provides the following information for the account:

Account number

Name

Address

Bank account posting group

The account must meet the following requirements:

Use US dollars.

Use 9075 as the number of the next bank account statement for reconciliation in Business Central.

You need to set up the account for the customer.

Which values should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Question: 89

You are setting up a new company for a customer.

The customer wants to sell items in boxes and pallets, but refer to the items as pieces. Each box contains 12 pieces. Each pallet contains 144 pieces.

You need to assign the unit of measures to items.

How should you assign the unit of measures?

- A. Create Boxes as an item unit of measure with a quantity per unit measure set to 1.
- B. Create Pallet as a base unit of measure. Add Pieces as an item unit of measure with the quantity per unit set to 0.0069.
- C. Create Pieces as a base unit of measure. Add Pallet as an item unit of measure with the quantity per unit set to 144.
- D. Create Pallet as a base unit of measure. Add Box as an item unit of measure with the quantity per unit set to 0.08333.

Answer: D

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/inventory-how-setup-units-of-measure>

Question: 90

HOTSPOT

A company uses Dynamics 365 Business Central.

A vendor needs to use a default warehouse location and invoice a different vendor for a purchase order.

Requirement

Control

Configure the default receiving warehouse.

Location Code
Responsibility Center
Purchaser Code
Shipment Method
Code

Configure the invoice
address.

Vendor No. (Pay to Vendor) on the Invoicing FastTab Vendor
Order Address on the Vendor Order Addresses Apply Template
on the vendor card _____ Company
level Contact on the contact card

Question: 91

DRAG DROP

You set up a sales module for a company. The manager provides you with the company sales price list.

The correct net price for products must display when the sales team creates sales orders.

You need to configure the system.

Which setup types should you use? To answer, drag the appropriate setup types to the correct scenarios.

Each setup type may be used once, more than once, or not at all. You may need to drag the split bar
between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Setup types

Sales Prices
Unit Price
Sales Line Discounts
Customer Invoice Discounts

Answer Area

Scenario

The company offers different discounts for different item types.

Loyal customers are rewarded with additional discounts when a certain sales amount on an order is reached.

Certain customers receive special prices for a certain amount of time.

Setup type

Setup type
Setup type
Setup type

Answer:

Explanation:

Question: 92

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are implementing Dynamics 365 Business Central for a company. The company provides subscription services to their customers. The subscription invoices are almost identical each month.

The company wants to set up recurring sales lines for subscription invoices.

You need to create systems for creating subscription invoices.

Solution: Create a new recurring sales line code. Then, run the Create Recurring Invoices batch to create the invoice.

Does the solution meet the goal?

A. Yes

B. No

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-work-standard-lines>

Question: 93

Two cash receipts were applied to a posted sales transaction. The first receipt was applied in error.

You need to remove the first cash receipt from the posted sales transaction.

Which set of steps should you perform?

A. 1. Navigate to Unapply Entries from the relevant customer ledger entry.

2. Unapply the second payment.

3. Unapply the first payment.

4. Apply the second payment to the customer ledger entry.

B. 1. Navigate to Reverse Transaction from the relevant detailed customer ledger entry.

2. Reverse the second payment.

3. Reverse the first payment.

4. Apply the second payment to the customer ledger entry.

C. 1. Navigate to Reverse Transaction from the relevant customer ledger entry.

2. Reverse the second payment.

3. Reverse the first payment.

4. Apply the second payment to the customer ledger entry.

D. 1. Post a reversing Cash Receipt and select the customer and relevant payment entry.

2. Navigate to Unapply Entries from the relevant customer ledger entry.

3. Unapply the payment.

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-us/learn/modules/enter-payments-dynamics-365-business-central/3-unapply>

Question: 94

A company uses the average costing method and inventory periods. Automatic Cost Posting is not enabled.

You close the inventory period for July 2020. You set the value of the Allow Posting From field in

General Ledger Setup to August 1, 2020.

You receive and post a purchase invoice for freight charges on August 8, 2020 against a purchase invoice that was posted on July 15, 2020. You run the Adjust cost – Item entries batch job for August.

You need to identify the adjustment entry related to July after running the batch job.

Which date is automatically selected for the value entry by batch job?

- A. July 15, 2020
- B. August 8, 2020
- C. August 1, 2020
- D. July 1, 2020

Answer: C

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/design-details-inventory-adjustment-valueentry-posting-date>

Question: 95

DRAG DROP

You set up a new company in Dynamics 365 Business Central.

You need to demonstrate Page Inspection functionality.

Which features should you use? To answer, drag the appropriate page inspection features to the correct display requirements. Each page inspection feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Page inspection

Question: 96

DAG DROP

You are creating a filtered view of a Chart of Accounts page.

The page must be filtered to display Net Change values only for transactions between a specific date range.

You must save the filtered view for future use.

You need to filter on transactions occurring between January 1, 2020 and January 31, 2020.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Set the date range to 01 /01 /20101 /31 /20 and save the view.

Select **Date Filter**

Add a **Fitter totals by** filter.

Select **Net Change**.

Set the date range to 01/01/20..01/31/20 and save the view.

Add a **Filter list by** filter.

Answer:

Explanation:

Add a **Filter totals by** filter.

Select **Date Filter**.

Set the date range to 01 / 01 / 20 .. 01 / 31 / 20 and save the view.

Question: 97

DRAG DROP

You need to undo an incorrectly posted purchase receipt from a related purchase order.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Select **Undo Receipt**

Change the status of the purchase order from **Release** to **Open**.

Select **Cancel**.

Choose **Receipts** and then open the incorrectly posted receipts.

Select a time to be cancelled from the posted purchase receipt.

Open the purchase order that is with the receipt.

Answer:

Explanation:

Open the purchase order that is with the receipt.

Choose Receipts and then open the incorrectly posted receipts.

Select a line to be cancelled from the posted purchase receipt.

Select Undo Receipt

Question: 98

You are implementing Dynamics 365 Business Central for a company.

The company needs to receive more items than they ordered from a vendor.

You need to configure over-receipt functionality on the items purchased.

In which two places should you configure the over-receipt functionality? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Item card
- B. Vendor card
- C. Stockkeeping Unit card
- D. Over-Receipt code list

Answer: AB

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365-release-plan/2020wave1/dynamics365-business-central/receive-more-items-than-ordered>

Question: 99

You are implementing Dynamics 365 Business Central.

You are unable to view some expected functionality in the system.

You need to demonstrate the use of different options for assigning profiles to users.

In which three places can you assign profiles to users? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Assign a User Group to the user. Assign the Profile to the User Group.
- B. Assign a Profile on the User Personalization page.
- C. Assign the Profile on the User card.
- D. Accept the default Profile.
- E. Add the user to the Profile card.

Answer: ABD

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/admin-users-profiles-roles>

Question: 100

A customer is using Dynamics 365 Business Central.

The customer is currently sending quotes and invoices using postal services. The customer wants to begin sending quotes and invoices by email directly from Business Central.

You need to configure outbound email.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Configure SMTP Mail Setup options.
- B. Run the Set up your Business Inbox in Outlook assisted setup tool.
- C. Run the Set up email logging assisted setup tool.
- D. Run the Email setup assisted setup tool.

Answer: AD

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/admin-how-setup-email>

Question: 101

You are setting up Dynamics 365 Business Central.

You need to define the Direct Cost Applied account.

Where should you define the accounts for Direct Cost Applied?

- A. Item Cards
- B. Inventory Posting Setup
- C. General Posting Setups
- D. Vendor Posting Groups

Answer: C

Explanation:

Question: 102

A company plans to verify that purchase invoices use agreed-upon prices and discounts.

The company is configuring settings on a vendor card. The company receives a validation error when creating a purchase order for the vendor.

You need to find out which setting is causing the validation error.

Which configuration option on the vendor card must you populate?

- A. Order address
- B. Location code
- C. Vendor Template
- D. Purchase Prices
- E. Vendor Posting Group

Answer: E

Explanation:

Reference:

<https://usedynamics.com/business-central/purchase/creating-vendors/>

Question: 103

DRAG DROP

You are setting up the general journals and batches for an accounting department.

The accounting department has multiple users who will work simultaneously within different general journals.

You need to set up the different journal templates and batches for each user according to the company's requirements.

Which options should you use? To answer, drag the appropriate options to the correct requirements. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Options	Requirement	Option
Force Doc Balance	Prefill the amount on journal lines based on the document number	Option
No. Senes		Option
Posting No Series	Assign document numbers to ledger entnes, independently from the user's iournal batch.	Option
Standard Journal Code	Balance the journal lines by document	Option
Suggest Balancing		Option

Answer:

Explanation:

Requirement

Option

Prefill the amount on journal lines based on the document number.

Suggest Balancing Amount

Assign document numbers to ledger entries, independently from the user's journal batch.

Posting No. Series

Balance the journal lines by document type.

Force Doc. Balance

payment terms with a value of

up

Question: 107

A company uses Dynamics 365 Business Central.

A customer wants to sell items that are not normally counted in the company's warehouse.

You need to configure the system to meet this requirement.

What should you set up?

- A. Non-Inventory Item type
- B. Item charge
- C. Inventory Item type
- D. Resource

Answer: A

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/inventory-about-item-types>

Question: 108

HOTSPOT

A company implements Dynamics 365 Business Central. You record the following vendor ledger entries for a vendor. You record dates by using the following format: month/date/year.

Posting date	Document type	Document number	Amount	Due date	Payment discount date	Payment discount tolerance date	Payment discount
01/15/21	Invoice	PI001	■ 5 500.00	02/15/21	02/15/21	02/15/21	■ 5 0.00
02/22/21	Invoice	PI002	■ \$ 1 000.00	01/22/21	03/01/21	03/03/21	- \$ 20.00
01/08/21	Credit Memo	PC001	\$ 125.00	02/08/21	02/08/21	02/08/21	\$0.00
01/12/21	Credit Memo	PC002	\$ 895.00	03/12/21	01/20/21	01/22/21	\$17.90
02/20/21	Invoice	PI003	- \$ 75.00	03/20/21	02/27/21	03/01/21	-51.50

The company takes advantage of any payment discounts. You use the Suggest Vendor Payments batch job in the Payment Journal to identify payments that must be made. You ensure that any available payment discounts will be automatically subtracted from the amount to be paid to the vendor.

You need to ensure that the invoices and credit memos for the vendor are included in the results of the Suggest Vendor Payments batch job.

Which report filters should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement

Suggest payment of invoice PI001 on 02/28/21.

Suggest a refund of credit memo PC001 on 02/28/21.

Suggest payment of invoices PI002 and PI003 where payment discount is deducted.

Report filter

Question: 111

A company uses Dynamics 365 Business Central to record payments for vendors. All payment records include similar data elements.

You are onboarding a new vendor. You must create a unique number series for payments from the vendor. No other vendors will use the new number series.

You need to configure the system.

What should you use?

- A. Vendors
- B. General Journals
- C. General Journal template
- D. Payment journals
- E. Workflow

Answer: B

Explanation:

You create a numbering system in general journals.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/business-central/ui-create-number-series>

Question: 112

DRAG DROP

A company is implementing Dynamics 365 Business Central.

You need to create a new company that is configured similarly to an existing company. The existing company has data that must be used as a template for the new company.

Which tools should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools

Requirement

Tool

Assisted Setup	Create the first essential data components of a company, such as the company name.	
RapidStart Services	Run a series of setup tasks in a specific order and manually mark the tasks as completed once the tasks are finished	
Configuration Questionnaire	Template the existing data and apply the template to the new company in a single process.	

Answer:

Explanation:

Requirement

Tool

Create the first essential data components of a company, such as the company name.

Assisted Setup

Run a series of setup tasks in a specific order and manually mark the tasks as completed once the tasks are finished

Configuration Questionnaire

Template the existing data and apply the template to the new company in a single process.

RapidStart Services

<https://docs.microsoft.com/en-us/dynamics365/business-central/admin-set-up-a-company-with-rapidstart>

Question: 113

You are implementing Dynamics 365 Business Central. You create a role center page for all users.

Users must not be allowed to personalize the page.

You need to configure the system.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. On the Profiles (Role) page, select the profile and select the User as the default profile option.
- B. On the User card, set the status to Disabled.
- C. On the Profiles (Role) page, select the profile and select the Show in Role Explorer column.
- D. On the Profiles (Role) page, select Enable the profile. Disable all other profiles.
- E. On the Profiles (Role) page, select the profile and select the Disable Personalization option.

Answer: ACE

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamics365/business-central/admin-users-profiles-roles>

Question: 114

DRAG DROP

You need to configure security for Dynamics 365 Business Central objects.

Which permission or set of permissions is allowed for each type of object? To answer, drag the appropriate permissions to the correct object types. Each permission set may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Permissions	Object type	Permission
Read, Insert, Modify, and Delete	Table	
	Page	
Execute	Table data

Question: 115

You are implementing Dynamics 365 Business Central for a company. The accounting manager provides you the chart of accounts. You are setting up the posting groups for the accounting department.

You must use a standard costing method and post any differences between actual purchase costs and the standard cost.

You need to set up a general ledger account for posting any differences in costs.

What should you use?

- A. Gen. Business Posting Groups
- B. General Posting Setup
- C. Vendor Posting Groups
- D. Inventory Posting Groups

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-us/learn/modules/posting-groups-dynamics-365-business-central/4-configure>

Question: 116

HOTSPOT

A company uses Dynamics 365 Business Central.

You need to ensure that the company can bulk edit data by using the Edit in Excel feature.

What should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Action

Configuration

Install the Edit in Excel feature.

Office Add-ins
AppSource Business
Central Lifecycle
Services

Link the feature to the Business
Central instance

Question: 117
HOTSPOT

A company uses Dynamics 365 Business Central to manage accounts payables. The company uses exact cost reversing when returning products to vendors.

Returns use current costs at the time of the return. Exact cost reversing must be enforced manually for current orders and automatically applied to all future orders.

You need to configure the system.

Which configuration options should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement

Automatically conduct exact cost reversing for all new PO returns.

Configuration option

	▼
Copy Item from Item No	
Exact Cost Reversing Mandatory	
Get Posted Document Lines to Reverse	
Automatic cost posting	

Manually conduct exact cost reversing on the individual return document line to reference the original purchase entry.

	▼
Apply entries	
Reverse transaction	
Appl.-from Item Entry	
Get Return Shipment Lines	

Answer:

Explanation:

Requirement

Automatically conduct exact cost reversing for all new PO returns.

	▼
Copy Item from Item No	
Exact Cost Reversing Mandatory	
Get Posted Document Lines to Reverse	
Automatic cost posting	

Manually conduct exact cost reversing on the individual return document line to reference the original purchase entry.

Question: 118
HOTSPOT

You are implementing Dynamics 365 Business Central.

The accounting manager wants to set up a complete Purchase Document Approval system with an approval hierarchy that meets the following requirements:

Sara processes all purchase orders. Any purchase orders that Sara processes must be approved.

Michelle can approve purchase orders up to \$10,000.

Shawn can approve the orders up to \$50,000.

Purchase orders above \$50,000 must be approved by Remy.

You need to create the hierarchy.

Which hierarchy setup should be used for each limit? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Limit

Unlimited

Purchase orders up to \$50,000

Purchase orders up to \$10,000

Everything must be approved

Hierarchy setup

Remy as Approval user with no approver
Remy as Approval user with Shawn as approver
Shawn as Approval user with Michelle as approver
Michelle as Approval user with Shawn as approver

Remy as Approval user with no approver
Remy as Approval user with Shawn as approver
Shawn as Approval user with Remy as approver
Shawn as Approval user with no approver

Michelle as Approval user with no approver
Michelle as Approval user with Shawn as approver
Shawn as Approval user with Remy as approver
Sara as Approval user with no approver

Sara as Approval user with no approver
Sara as Approval user with Michelle as approver
Michelle as Approval user with Shawn as approver
Michelle as Approval user with Remy as approver

Answer:

Explanation:

Limit

Hierarchy setup

Unlimited

Remy as Approval user with no approver
Remy as Approval user with Shawn as approver
Shawn as Approval user with Michelle as approver
Michelle as Approval user with Shawn as approver

Purchase orders up to \$50,000

Remy as Approval user with no approver
Remy as Approval user with Shawn as approver
Shawn as Approval user with Remy as approver
Shawn as Approval user with no approver

Purchase orders up to \$10,000

Michelle as Approval user with no approver
Michelle as Approval user with Shawn as approver
Shawn as Approval user with Remy as approver
Sara as Approval user with no approver

Everything must be approved

Sara as Approval user with no approver
Sara as Approval user with Michelle as approver
Michelle as Approval user with Shawn as approver
Michelle as Approval user with Remy as approver

Question: 119

You are implementing Dynamics 365 Business Central Online for a company. The company is migrating from a previous version of Business Central.

The company wants to migrate historical financial information from the previous fiscal year into the new database, including all analytical information.

You need to migrate data, including analytical information, by using a configuration package.

Which three steps should you use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a configuration package. Then select the appropriate table.
- B. Export the table from the configuration package to Microsoft Excel. Adjust the file to include dimension information. Import the updated Excel table.
- C. Select the Dimensions as Columns field. Include all the dimension fields in the configuration package.
- D. Export the configuration package.
- E. Assign a data template to the configuration package.

Answer: ADE

Explanation:

Question: 120

You are configuring Dynamics 365 Business Central. You have a file containing balances for all general ledger accounts as of December 31, 2018.

You import the data into a General Journal batch. You enable the Force Doc. Balance option for the template.

When you attempt to post the batch, the following error message displays:
Out of balance

You need to resolve the error.

Which three actions should you perform? Each correct answer presents a part of the solution.

NOTE: Each correct selection is worth one point.

- A. Ensure that the set of journal entrylines balance by posting date.
- B. Ensure that the set of journal entrylines balance by gen. posting type.
- C. Ensure that the set of journal entrylines balance by amount.
- D. Ensure that the set of journal entrylines balance by document no.
- E. Ensure that the set of journal entrylines balance by dimension setID.

Answer: ACD

Explanation:

Question: 121

DRAG DROP

The company uses Dynamics 365 Business Central. You create several dimensions that will be used to perform cost analyses.

Some dimension value combinations are not allowed when posting purchase transactions.

You need to set up dimension combinations.

In which order should you perform the actions? To answer, move all the actions from the .list of actions and arrange them in the correct order.

Actions

Answer Area

Open the Dimensions Combinations page.

Select the dimensions combination and set the option to Limited

Open the Dimension Value Combinations page.

Select the dimension value combinations and set the option to Blocked.

Explanation:

Answer:

Open the Dimensions Combinations page.

Select the dimensions combination and set the option to Limited.

Open the Dimension Value Combinations page.

Select the dimension value combinations and set the option to Blocked.

Question: 122

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are configuring default reports and layouts in Dynamics 365 Business Central.

You must add new data items to the report and change the layout associated with the default Purchase Order report.

A developer creates and deploys a new report object that includes the new data items and layout.

You need to configure Business Central to use the new report object as the system default when printing purchase orders.

Solution: On the Report Selection – Service page, set the value of the Usage option to Order. Update the Report ID shown on the page to reflect the new report object.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/across-report-selections>

A company uses Dynamics 365 Business Central.

Which field is used to calculate the Due based on the Payment Terms?

- A. Order Date
- B. Due Date
- C. Posting Date
- D. Document Date

Answer: D

Explanation:

Question: 129

A company uses Dynamics 365 Business Central. All activity in the system is based on the company's local currency.

Sales invoice amounts must be rounded to the nearest interval based on amount.

You need to complete the configuration.

Where should you configure the setup?

- A. Currency Card
- B. General Ledger Setup
- C. Sales & Receivable Setup
- D. Currency Exchange Rates

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/finance-set-up-invoice-rounding>

Question: 130

A company has been using Dynamics 365 Business Central for many years.

A new accounting manager for the company reviews the chart of accounts. The manager wants to remove some general ledger accounts.

The Check G/L Account Usage field is selected in the General Ledger Setup.

You need to assist with the account deletions.

What is one requirement that enables deletion of a general ledger account?

- A. The account cannot have a balance amount.
- B. The account cannot be used in any account schedule.
- C. The general ledger account is configured to allow for deletion
- D. The account must have ledger entries.

Answer: A

Explanation:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/purchasing-how-prioritize-vendors>

Question: 138

DRAG DROP

You are setting up a new company for a customer.

The customer wants you to filter the view to show all customers in the My Customers list and calculate the year-to-date sales.

You need to apply the filter.

Which four actions should you perform in sequence? To answer, move the appropriate entities from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Actions

Answer Area

Add the Date Filter as a Filter total.
Then enter **W-CY..W.**

Open the filter pane. Then select
the **No.** field and set the filter to %
MYCUSTOMERS.

Open the customer list.

Add the Date Filter as a Filter total.
Enter **Y** for year.

Open the customer card.

Save the view by naming it **Sales
for my customers this year**

Open the filter pane Then select the **No**
field and set the filter to all the customer
numbers from the My Customers list,
separated by a pipe character.

Explanation:

Answer:

Open the customer list.

Open the filter pane. Then select the **No.** field and set the filter to % **MYCUSTOMERS**.

Add the Date Filter as a Filter total.
Enter **Y** for year.

Save the view by naming it **Sales for my customers this year**.

Question: 139

You are implementing Dynamics 365 Business Central for a customer.

You need to explain the primary functions of the Adjust Cost – Item Entries batch job.

What are three primary purposes of the Adjust Cost – Item Entries batch job? Each correct answer presents part of the complete solution.

NOTE: Each correct selection is worth one point.

A. Establish the earliest possible posting date for the Post Inventory to G/L process.

- B. Adjust the item quantity.
- C. Calculate the correct cost of the sale of an item, according to an item's costing method.
- D. Update the cost of goods sold (COGS) for historic sales entries.
- E. Adjust the item tracking.

Answer: ACD

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics-nav-app/design-details-cost-adjustment>

Question: 140

You are implementing Dynamics 365 Business Central for a company.

The company often invoices multiple shipments on one invoice.

You need to train the accounting staff how to process these sales invoices.

In which two ways should you train the staff to create invoices? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use the Combine Shipments batch job to automatically create and post sales invoices and credit memos.

- B. Create a new invoice for the Bill-to-Customer. Use the Get Shipment Lines action to select all the shipments from different sales orders and Sell-to-Customers.
- C. Use the Combine Shipments batch job to automatically create sales invoices and delete completed sales orders.
- D. Create a new invoice for the Sell-to Customer. Use the Get Shipment Lines action to select all the shipments from different sales orders, in the same currency.
- E. Use the Combine Shipments batch job to automatically create, post, and print sales invoices.

Answer: AD

Explanation:

Reference:

<https://docs.microsoft.com/en-gb/dynamics365/business-central/sales-how-to-combine-shipments-on-a-single-invoice>

Question: 141

You are using the Suggest Vendor Payments batch job to create payment lines for vendors.

You have a vendor invoice. The payment date must be two days before the invoice due date.

You need to pay the purchase invoice.

Which two fields should you configure? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Find Payment Discounts

- B. Calculate Posting Date from Applies-to-Doc Due Date
- C. Applies-to-Doc Due Date Offset
- D. Summarize per Vendor

Answer: B, C

Question: 142

HOTSPOT

A company uses Dynamics 365 Business Central.

The company plans to implement a cash receipt journal batch based on the following requirements:

- The cash receipt journal batch must use a bank account by default.
- The cash receipt customer payments must be archived automatically in the posted journals.

The company uses the accrual basis for accounting.

You need to configure the cash receipt journal batch.

Which options should you use? To answer, select the appropriate options in the answer area.

Requirement

Cash receipt journal batch must use a bank account.

Option

☐ G/L account under Bal Account Type	☐ ^
Bank Account under Bal Account Type	
☐ Customer under Bal Account Type	
☐ Vendor under Bai. Account Type	
☐ Copy to Posted Jnl Unes	☐ /f/
☐ Posting No. Series	
Suggest Balancing Amount Reason Code	

NOTE: Each correct selection is worth one point.

Explanation:

Answer:

Answer Area**Requirement**

Cash receipt journal batch must use a bank account.

Cash receipt customer payments must be archived in posted journals.

Option

☐ G/L account under Bal Account Type

☐ Copy to Posted Jnl Unes

Question: 143
HOTSPOT

A company uses Dynamics 365 Business Central. The company requires the following discount setup:

- The system must calculate the discounts given on individual items that are sold.
- The system must post the discounts to a specific general ledger account.

You need to configure the system.

Answer Area**Requirement**

Calculate discounts given on items sold.

Post discounts to general ledger account

Setting

☐ Select Line Discounts for the Discount Posting setting.

☐ Select Une Discounts for the Discount Posting setting.

☐ Select Invoice Discounts for the Discount Posting setting ☐ Select No Discounts for the Discount Posting setting.

☐ Enter the G/L account for the Sales Line Disc Account setting ☐ I

☐ Enter the G/L account for the Sales Une Disc. Account setting.

☐ Enter the GA account for the Sales Inv Disc. Account setting ☐ Enter the G/L account for the Purch. Li ne Disc. Account setting.

Answer:

Explanation:

Answer Area

Requirement

Calculate discounts given on items sold.
Post discounts to general ledger account.

Setting

Select Une Discounts for the Discount Posting setting.
Enter the G/L account for the Sales Une Disc Account setting.

Question: 144

DRAG DROP

A company adds a user to Microsoft 365.

Existing user groups do not have the required permission sets for newly added users.

You need to assign a Dynamics 365 Business Central user group and permissions to the user and the company.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

1 Assign the company to the user.

Select Get New Users from Microsoft 365 / Update Users from Microsoft 365.

Create a user group.

Select the user from the user list Assign the user group to the user | Assign the user to the company.

Answer area

Answer:

Explanation:

Actions

Assign the company to the user.

Answer area

Select Get New Users from Microsoft 365 / Update Users from Microsoft 365.

Create a user group.

Select the user from the user list

Assign the user group to the user

Assign the user to the company.

Question: 145

DRAG DROP

A company uses Dynamics 365 Business Central. The company has two finance managers.

You need to configure approval workflow for purchase orders. Only one manager is required to approve a purchase order.

How should you complete the configuration? To answer, drag the pages to the correct requirements. Each page may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Pages	Requirement	Page
☐ Workflow	Create and enable a purchase order approval workflow.	
☐ Workflow User Group		
☐ Workflow Category	Set up the relevant sequence for the approval managers.	
☐ Approval User Setup	Enable parallel approval for two managers.	

Answer:

Explanation:

Question: 147

A company uses Dynamics 365 Business Central.

When users create sales documents, the system must display an alert that shows the customer's remaining credit. The alert must also notify the user if the customer has any overdue payments.

You need to configure a credit limit and overdue payment warning.

What should you do?

- A. Enable the Exact Cost Reversing Mandatory field.
- B. Configure the Block Customer field.
- C. Select Both Warnings in the Credit Warnings field.
- D. Configure the Late Payment Predict extension.

Answer: C

Explanation:

Question: 148

HOTSPOT

A company uses Dynamics 365 Business Central.

The company plans to configure a customer card based on the following requirements:

- Process payments through a bank account.
- Bill a different customer for invoices.
- Print invoices in a specific language.

You need to configure the customer card.

Which components should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Component
Process payments through a bank account.	Payment Method Code Payment Terms Code Payment Method Code Preferred Bank Account
Bill a different customer for invoices.	Bill to customer Contact name Bill to customer Ship-to code
Print invoices in a specific language.	language code Country/Region code language code Responsibility center

Answer:

Explanation:

Question: 149

DRAG DROP

A company uses Dynamics 365 Business Central

A maintenance manager buys weekly cleaning supplies from a local hardware store and would like to automate purchase order entries.

You need to configure the system to add a default general ledger (G/L) account to the hardware store purchase orders.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
Change the Insert Rec Lines on Invoices to Automatic and then close the window.	
Select Payment Terms code for the selected vendor.	
Choose Standard Purchase Code for the selected vendor as a recurring purchase line.	
Configure Standard Purchase Code and set up relevant G/L account.	
Change the Insert Rec Lines on Orders to Automatic and then close the window.	

Answer

Explanation:

Actions	Answer area
Change the Insert Rec. Lines on Invoices to Automatic , and then close the window.	1 Choose Standard Purchase Code for the selected vendor as a recurring purchase line.
Select Payment Terms code for the selected vendor.	2 Configure Standard Purchase Code and set up relevant G/L account.
	3 Change the Insert Rec. Lines on Orders to Automatic , and then close the window.

Question: 150

DRAG DROP

You set up a new company for a client. The client provides you with a Microsoft Excel file that contains master data for vendors and vendor bank accounts details.

You need to import vendor master data and relevant bank account details by using a configuration package.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Define the VendorBankAccount table as a parent in Parent Table ID.

Import two separate Excel files into the package, one for vendor data and one for bank account data.

Create a configuration package.

Import one Excel template that contains vendor and vendor bank account data.

Define the Vendor table as a parent in Parent Table ID for VendorBankAccount table.

Select **Apply package** on the header.

Answer area

Answer

Explanation:

Answer area

- 1
- 2
- 3
- 4

Create a configuration package.

Define the Vendor table as a parent in Parent Table ID for VendorBankAccount table.

Select **Apply package** on the header.

Actions

Define the VendorBankAccount table as a parent in Parent Table ID.

Import one Excel template that contains vendor and vendor bank account data.

Question: 151

A company is using Dynamics 365 Business Central. The finance manager creates a new general ledger (G/L) account. You need to configure the system to include the G/L account in the general journal reconciliation window. What should you do?

- A. Enable the Reconciliation Account field in the GA account card.
- B. Enable the Direct Posting field in the G/L account card.
- C. Add this G/L account to the Bank Account Posting Group.
- D. Create a new payment reconciliation journal.

Answer: A

Explanation:

Question: 152

DRAG DROP

You are implementing Dynamics 365 Business Central for a client.

You need to ensure that the user interface (UI) meets the client's requirements.

Which approach should you use? To answer, drag the appropriate approaches to the correct requirements. Each approach may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Approaches	Requirement	Approach
Personalize	Ensure that UI changes made are applicable only at the user level.	
Customize	UI changes must apply to all users in the environment and any extensions produced by the user	
Design	UI changes must apply only to the Role Center to which they are specified	

Answer:

Explanation:

Approaches	Requirement	Approach
Personalize	Ensure that UI changes made are applicable only at the user level.	Personalize
Customize	UI changes must apply to all users in the environment and any extensions produced by the user	Design
Design	UI changes must apply only to the Role Center to which they are specified	Customize

Question: 153

Question: 154

A company uses Dynamics 365 Business Central.

An accountant posts bank entries at month end. The accountant must manually reconcile customer and vendor payment entries.

You need to reconcile the entries.

Which two pages should you use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Customer Ledger Entries
- B. Vendor Ledger Entries
- C. Check Ledger Entries
- D. Bank Account Ledger Entries

Answer: A, C

Explanation:

Question: 155

You are configuring default reports and layouts in Dynamics 365 Business Central.

You must add new data items to the report and change the layout associated with the default Purchase Order report.

A developer creates and deploys a new report object that includes the new data items and layout

You need to configure Business Central to use the new report object as the system default when printing purchase orders.

Solution: On the Report Layout Selection page, select the new report object. Update the value to Custom Layout and select the updated layout.

Does the solution meet the goal?

A. No

B. Yes

Answer: B

Explanation:

Question: 156

A company implements Dynamics 365 Business Central.

The company plans to automatically post inventory-related documents simultaneously when posting sales transactions.

You need to configure sales and receivables.

Which two settings should you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Return Receipt on Credit Memo
- B. Stock warning
- C. Shipment on Invoice
- D. Document Default Line Type

Answer: A, D

Explanation:

Question: 157

DRAG DROP

A company implements Dynamics 365 Business Central.

The company must import the following opening balances into Dynamics 365 Business Central:

- Item
- Bank
- Customer

You need to implement tools to import opening balances.

Which components should you use? To answer, drag the appropriate components to the correct opening balances. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Question: 158

DRAG DROP

A company implements Dynamics 365 Business Central.

The company stores master data for vendor opening balances in an Excel file. Most of the vendors use a foreign currency for open balances. The balancing account is preselected on the journal batch.

You need to import the vendor opening balances by using configuration packages.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in

the correct order.

Actions

Select the fields in the following processing order: Account Type, Account No., Posting Date, Document No., Description, Amount (LCY).

Select the fields in the following processing order: Account Type, Account No., Posting Date, Document No., Description, Amount (LCY), and Currency.

Import from Excel and then post to the general journal.

Create a configuration package for table S1 Gen. Journal Line.

Export to Excel from the configuration package and populate the data.

Import the Excel file and validate the relationship. Then apply the data and post to the general journal.

Select the fields in the following processing order: Account Type,

Account No., Posting Date, Document No., Description, Currency Code, Amount, and Amount (LCY).

Answer area

Answer:

Explanation:

Actions

Select the fields in the following processing order: Account Type, Account No., Posting Date, Document No., Description, Amount (LCY), Currency, and Amount.

Select the fields in the following processing order: Account Type, Account No., Posting Date, Document No., Description, Amount, Amount (LCY), and Currency.

Import from Excel and then post to the general journal.

Answer area

1 Create a configuration package for table 81 Gen. Journal Line.

2 Export to Excel from the configuration package and populate the data.

3 Import the Excel file and validate the relationship. Then apply the data and post to the general journal.

4 Select the fields in the following processing order: Account Type, Account No., Posting Date, Document No., Description, Currency Code, Amount, and Amount (LCY).

Question: 159

A company implements Dynamics 365 Business Central.

You need to create a new payment terms record to meet the following requirements:

- Ensure that the due date for all vendor invoices is 30 days.
- Grant vendors a two percent discount if an invoice is paid within 10 days.

Which three actions should you perform? Each correct answer presents a part of the solution.

NOTE: Each correct selection is worth one point.

- A. Set the value of the Discount Date Calculation field to 2D
- B. Set the value of the Due Date Calculation field to 30D.
- C. Set the value of the Discount Date Calculation field to 10D
- D. Set the value of the Discount % field to 2.
- E. Set the value of the Discount % field to 10.

Answer: B, C, D

Explanation:

Question: 160

A company uses Dynamics 365 Business Central.

The company plans to use multiple unit prices for the same items from different vendors.

You need to configure the purchase price of the items.

In which two locations can you configure the purchase price? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Resource prices
- B. Item card
- C. Customer card
- D. Purchase order
- E. Vendor card

Answer: B, E

Explanation:

Question: 161

HOTSPOT

A client plans to implement Dynamics 365 Business Central.

You need to configure the system.

Which value posting type should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Allow the user to change the default dimension value for the account type in a transaction.

Value posting type

☐ No Code
☐ Code Mandatory
☐ Same Code

☒ No Code

Prevent the user from posting a Transaction without a dimension value for the account type.

☐ Code Mandatory
☒ Code Mandatory
☐ Same Code

☐ No Code

Ensure that Business Central only accepts the default dimension value set for the account type in a transaction.

☐ Same Code

☐ Code Mandatory

☒ Same Code

☐ No Code

Explanation:

Answer:

Question: 165

A company uses Dynamics 365 Business Central.

You need to ensure that sales invoice discounts are calculated automatically.

What should you configure?

- A. Calc. Inv. Discount setting on the Sales & Receivables Setup page
- B. Discount Posting setting on the Sales & Receivables Setup page
- C. Calc. Inv. Discount setting on the Purchase & Payables Setup page
- D. Show Amounts setting on the General Ledger Setup page

Answer: A

Explanation:

Question: 166

DRAG DROP

A company uses Dynamics 365 Business Central.

You need to configure the system to meet the following requirements for a purchasing agent:

- Create and post purchase documents including purchase receipt lines.
- Do not allow agents to read general ledger (G/L) or bank balances.
- Restrict access to view G/L amounts.
- Ensure that purchasing agents can select G/L codes on purchase documents.

You need to restrict access to view G/L amounts.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Actions	Answer
In the row for the G/L account table, select the Security Filter column.	
In the Field Filter column, set the value to 1500 .	
Remove page permissions for the G/L account list page.	
Select the permissions sets that you want to modify.	
Remove page permissions for chart of accounts, G/L entries and G/L account card.	
Assign a permission set to a user.	

Answer:

Explanation:

Actions	Answer area
In the row for the G/L account table, select the Security Filter column.	1 Select the permissions sets that you want to modify.
In the Field Filter column, set the value to 1500 .	2 Remove page permissions for chart of accounts, G/L entries and G/L account card.
Remove page permissions for the G/L account list page.	3 Assign a permission set to a user.

Question: 167

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You need to transfer opening balances data into the system.

Solution: Import the data by using comma-separated values (CSV) files.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: A

Explanation:

Question: 171

HOTSPOT

A company uses Dynamics 365 Business Central. There are three departments (ADM, PROD and SALES) that are set up as dimensions.

A customer wants to speed up the purchase invoice entry process for building materials by having the AP clerks fill purchase invoices without using dimensions. Monthly building expenses can vary between \$5, 000-\$7, 000 per month. The allocation of building expenses is as follows:

Department	Allocation
PROD	50 percent
SALES	25 percent
ADM	25 percent

Allocation of the monthly building expense between dimensions is required at the end of each month.

You need to configure the system to automatically allocate building expense total balances each month between dimensions. How should you configure recurring general journals? To answer, select the appropriate options in the answer area

a. NOTE: Each correct selection is worth one point.

Question: 177

You are a functional consultant configuring items in Dynamics 365 Business Central.

You are configuring multiple units of measure for an item that has a base unit of measure of PCS and an additional unit of measure of BOX. One BOX holds 20 PCS of an item.

You need to define the relationship between the units of measure.

Which value should you populate on the Item Units of Measure page for the item?

- A. For the PCS unit of measure, set the Qty. per Unit of Measure to 0.05.
- B. For the PCS unit of measure, set the Qty. per Unit of Measure to 20.
- C. For the BOX unit of measure, set the Qty. per Unit of Measure to 20.
- D. For the BOX unit of measure, set the Qty. per Unit of Measure to 0.05.

Answer: C

Explanation:

Question: 178

A company is implementing Dynamics 365 Business Central.

Vendor open balances need to be posted to the general ledger (G/L) account directly by using the general journal.

You need to configure the G/L account to allow users to post vendor open balances to payables accounts.

Which setting should you use?

A. Account Category

B. Income/Balance

C. Default Deferral template

D. Direct Posting

Answer: D

Explanation:

Question: 179

DRAG DROP

A company uses Business Central.

The operations team posts an incorrect quantity received on a purchase order.

You need to undo the quantity posting on the posted purchase receipt before the purchase order is invoiced.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

In Lines, select the **Function** button, and select the **Order Tracking** action. On the Posted Purchase Receipts page, select the **Find Entries** action. Navigate to the Posted Purchase Receipts page.

Open the posted purchase receipt that you want to undo.

In Lines, select the line or lines that you want to undo, select the **Function** button, and select the **Undo Receipt** action.

Select **Yes** in the confirmation pop-up box.

Answer Area

Answer:

Explanation:

Question: 184

You are configuring Dynamics 365 Business Central for a client.

Invoice amounts in the local currency code must be rounded to hundredths.

You need to configure the Inv. Rounding Precision (ICY) field in General Ledger Setup.

Which value should you use?

- A. 0-01
- B. 0.20
- C. 1.00
- D. 1-11
- E. 2.00

Answer: B

Explanation:

Question: 185

A company uses Dynamics 365 Business Central.

The company performs an annual review of customer prices and determines that sales prices must rise by 10% for the coming year. You need to adjust the prices. What should you do?

- A. Manually add new lines to the Sales Lines Discount page.
- B. Use the action Suggest Sales Price on Worksheet.
- C. Manually add a sales price to the Sales Prices page.
- D. Manually add a sales price to the Sales Price Worksheet page.

Answer: B

Explanation:

Question: 186

DRAG DROP

A company uses Dynamics 365 Business Central.

The company requires the system to prevent sales orders and other sales transactions from posting without a specific dimension, even when no rules are set up for a customer.

You need to configure the system so customer entries always post with the value for the required dimension.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Define the dimension value, and in the Value Posting column, set the same dimension value.

Disable the dimension value from posting.

Select the relevant table ID.

On the Dimensions page, select the required dimension.

Select Account Type Default Dim.

Leave the dimension value blank, and in the Value Posting column, select Code Mandatory.

Steps to create default dimensions for an entity

Answer:

Explanation:

Actions

Define the dimension value, and in the Value Posting column, set the same dimension value.

Disable the dimension value from posting.

Steps to create default dimensions for an entity

1 Select the relevant table ID.

2 On the Dimensions page, select the required dimension.

3 Select Account Type Default Dim.

4 Leave the dimension value blank, and in the Value Posting column, select Code Mandatory.

Question: 187

DRAG DROP

A manufacturer uses Dynamics 365 Business Central. The company has the following item types:

- Raw Materials

- Work-in-progress (WIP)
- Finished Goods

Different prefixes are used for item numbers to identify these item types.

The company requires the following system setup:

- Use a unique number series for each item type.
- No. Series must be selectable when creating manual items.
- Implement automatic number assignment

You need to configure the system.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

- Number series configuration
- Create a number series
 - Set the default number series on the Inventory Setup page
 - Enable the ability to use default numbers
 - Create relationships between the number series.

Answer

Explanation:

- Number series configuration
- Create a number series
 - :: Set the default number series on the Inventory Setup page
 - Enable the ability to use default numbers
 - Create relationships between the number series

Question: 188

DRAG DROP

A company uses Dynamics 365 Business Central.

The finance manager requires a specific group of operating team users to have access only to a particular set of customer data.

You need to configure and enforce the security requirements.

Which pages should you configure? To answer, move the appropriate pages to the correct requirements. You may use each page once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Pages	User security	Requirement	Page
☐ User Card			
☒ Wc (Wc)		Create security rules that will grant user? required access, Assign the predefined security rule sets to the requested users	
☐ Permission Sets			
☐ Microsoft 365 admin center			

Answer:

Explanation:

Pages	User security	Requirement	Page
☐ User Card			
☒ Profiles (Role)		Create security rules that will grant users required access, Assign the predefined security rule sets to the requested users.	
☐ Permission Sets			
☒ Microsoft 365 admin center			

Question: 189

DRAG DROP

A company uses Dynamics 365 Business Central.

The company requires one entry to apply customer payments to one or many customer invoices and enter the payment in the bank account.

You need to prepare a cash receipt journal.

Which four actions should you perform in sequence? To answer, move the appropriate actions from

the list of actions to the answer area and arrange them in the correct order.

Actions	Prepare a cash receipt journal
☐ Post the cash receipt journal.	
☐ Select G/L Account as the Balance account type.	
☐ Add lines for each customer payment.	
☐ Open a cash receipt journal.	
☐ Apply entries.	

Answer:

Explanation:

Actions	Prepare a cash receipt journal
☐ Post the cash receipt journal.	

	Prepare a cash receipt journal
1	☐ Select G/L Account as the Balance account type.
2	☐ Add lines for each customer payment.
3	☐ Open a cash receipt journal.
4	☐ Apply entries.

Question: 190

DRAG DROP

A company uses Dynamics 365 Business Central.

The company plans to automatically create vendor payments based on posted purchase invoices. The payments should be summarized based on the vendor invoices.

You need to configure the vendor payments.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- [On the Prepare tab, select Suggest Vendor Payments
- On the Options page, enter the last payment date and disable the Summarize per Vendor option
- Navigate to General Journals
- [On the Related tab, open the Payments menu and select Print Remittance Advice
- [Navigate to Payment Journals,
- On the Prepare tab, select **Suggest Employee Payments**
- [On the Options page, enter the posting date and enable the Summarize per Vendor option.

Answer area

Answer:

Explanation:

Answer area

Navigate to Payment Journals.

On the Prepare tab, select **Suggest Vendor Payments**.

On the Options page, enter the posting date and enable the Summarize per Vendor option.

Question: 191

DRAG DROP

A company uses Dynamics 365 Business Central.

The company bills thousands of sales invoices for recurring subscription services on a monthly basis.

You need to ensure recurring sales invoices are automatically created for the same subscription services.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer area

Update the Insert Rec Lines on Invoices to Manual

Configure the Standard Sales Lines Card by defining the Code field, enter Subscription details and choose the appropriate G/L account

Update the Insert Rec Lines on Invoices to Always Ask

Open the Customer List page and select the customer for recurring billing services. Click on the customer, select Related Sales and then Recurring Sales Lines

Assign the Standard Sales Lines Card to recurring subscription services

Update the Insert Rec. Lines on Orders on Invoices to Automatic

Run the Create Recurring Sales Invoices task batch job

Answer:

Explanation:

Actions

Answer area

- 1. Update the Insert Rec. Lines on Invoices to **Manual**.
- 2. Configure the Standard Sales Lines Card by defining the Code field, enter Subscription details and choose the appropriate G/L account.
- 3. Update the Insert Rec. Lines on Invoices to **Always Ask**.

1. Open the Customer List page and select the customer for recurring billing services. Click on the customer, select **Related Sales**, and then **Recurring Sales Lines**.
2. Assign the Standard Sales Lines Card to recurring subscription services.
3. Update the Insert Rec. Lines on Orders on Invoices to **Automatic**.
4. Run the **Create Recurring Sales Invoices** task batch job.

Question: 192

You are setting up Business Central for a company.

The accounting manager requires the following setup for posted transactions:

- The use of locations must be mandatory for all users
- Bins must be set up as mandatory for each location.

You need to configure the system to meet the requirements.

Which two pages should you use? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Inventory Setup
- B. Location Card
- C. Inventory Posting Setup
- D. Sales & Receivables Setup
- E. Item Card

Answer: A, B

Explanation:

Question: 193

DRAG DROP

A company uses Business Central and plans to automate its processes by using Power Automate.

The company finance manager wants to restrict access to Power Automate features. Only trained users must be able to create and run instant flows in Business Central.

You need to set up access control for specific users.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Power Automate integration with Business Central

- Validate that authorized users have the Automate Action " permission.
- As an administrator, agree to the integration notice on the Privacy Notices Status page on behalf of all users or allow users to decide themselves
- Remove the system permission Allow Action Automate " ID 9630) from the assigned permissions sets
- Add the system permission Allow Action Automate (ID " 9630) to the assigned permissions sets
- As an administrator, disagree to the integration notice " on the Privacy Notices Status page on behalf of all users.

Answer:

Explanation:

Actions

Power Automate integration with Business Central

- | | |
|---|--|
| 1 | Remove the system permission Allow Action Automate (ID 9630) from the assigned permissions sets. |
| 2 | Add the system permission Allow Action Automate (ID 9630) to the assigned permissions sets. |
| 3 | As an administrator, disagree to the integration notice on the Privacy Notices Status page on behalf of all users. |
- Validate that authorized users have the Automate Action permission.

As an administrator, agree to the integration notice on the Privacy Notices Status page on behalf of all users or allow users to decide themselves.

Question: 194
DRAG DROP

A company is implementing Business Central. The company is evaluating Microsoft Power Platform integration benefits. The company has the following business requirements:

- Provide financial reporting in real-time.
- Automate customer onboarding in Business Central.

- Create a workflow that automates invoice approvals.
- Integrate item scanning capabilities in the warehouse.

You need to evaluate the specified business requirements and align them with Microsoft solutions that can meet each need effectively.

Which Microsoft Power Platform tools should you recommend? To answer, move the appropriate business Microsoft Power Platform tools to the correct requirements. You may use each Microsoft Power Platform tool once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Question: 195

You need to transfer opening balances data into the system.

Solution: Use a configuration package to import the data.

Does the solution meet the goal?

A. Yes

B. No

Answer: B

Explanation:

Question: 196

You need to transfer opening balances data into the system.

Solution: Transfer balances by using the Copy Company function.

Does the solution meet the goal?

A. Yes

B. No

Answer: A

Explanation:

Actions

Answer Area

⌵	Open the General Journal Templates page.
⌵	Select the required General Journal template.
⌵	Create a new batch named Bank.
⌵	Disable the ability to allow payment exports.
⌵	Create a new batch named EFT.
⌵	Select the required Payment template.
⌵	Open the General Journal Batches page.
⌵	Enable the ability to export a payment file.

Answer:

Explanation:

Question: 197

DRAG DROP

A company uses Business Central.

A user mistakenly partly applied two cash receipts to a posted sales transaction.

You need to remove the first cash receipt from the posted sales transaction to correct the mistake.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Correction of customer payment application
⋮ Unapply the second payment.	
⋮ Navigate to Reverse Transaction from the relevant detailed customer ledger entry.	
⋮ Navigate to Unapply Entries from the relevant customer ledger entry.	
⋮ Unapply the first payment.	
⋮ Post a reversing cash receipt and select the customer and relevant payment entry.	
⋮ Apply the second payment to the customer ledger entry.	

Answer:

Explanation:

Actions	Correction of customer payment application
⋮ Unapply the second payment.	
⋮ Navigate to Reverse Transaction from the relevant detailed customer ledger entry.	

1	⋮ Navigate to Unapply Entries from the relevant customer ledger entry.
2	⋮ Unapply the first payment.
3	⋮ Post a reversing cash receipt and select the customer and relevant payment entry.
4	⋮ Apply the second payment to the customer ledger entry.

Question: 198

A company uses Dynamics 365 Business Central.

The company must be able to control the periods when users will post deferrals in the system.

You need to configure the system.

From which page should you configure the system?

- A. User Tasks
- B. My Settings
- C. User Setup
- D. Profiles (Roles)

Answer: C

Explanation:

Question: 199

DRAG DROP

A company uses Dynamics 365 Business Central.

The accounting manager wants partially shipped and invoiced sales orders that will not be fulfilled to not be displayed on the active page (Open Sales Order list). Deleted sales orders must be available for reporting of ordered and delivered quantities.

You need to configure sales orders.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Run the Delete Invoiced Sales Orders job.

Enable Archive Sales Orders in Sales & Receivables Setup.

Change the sales order status to Open.

Reduce the sales order quantity to match the shipped quantity.

Change the sales order status to Released.

Sales order configuration steps

Answer:

Explanation:

Actions

Run the Delete Invoiced Sales Orders job.

Sales order configuration steps

- 1 Enable Archive Sales Orders in Sales & Receivables Setup.
- 2 Change the sales order status to Open.
- 3 Reduce the sales order quantity to match the shipped quantity.
- 4 Change the sales order status to Released.

Question: 200

DRAG DROP

You need to advise a company how to process a purchase order in the system for a company.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Run a Test Report.
- Add a Purchaser Code.
- Select Post and Receive.
- Create a warehouse receipt.
- Add a vendor.
- Change the Purchase Order to a Status of Released.
- Add Items, including Quantity, to the lines.
- Select Post and Invoice.

Answer area

Answer:

Explanation:

Actions

- Run a Test Report.
- Add a Purchaser Code.
- Select Post and Receive.
- Create a warehouse receipt.

Answer area

- 1 Add a vendor.
- 2 Change the Purchase Order to a Status of Released.
- 3 Add Items, including Quantity, to the lines.
- 4 Select Post and Invoice.

Question: 201

A company uses Dynamics 365 Business Central to manage receivables.

You must import a series of payments from a bank account and automatically match the payments against similar ledger entries already entered in Business Central.

You need to import and apply the payments to the ledger entries that are automatically matched by the system.

Which form should you use?

- A. Payment Application Rules
- B. Payment services
- C. Payment Reconciliation Journal
- D. Payment Registration

Answer: C

Explanation:

Question: 202

DRAG DROP

You are implementing Business Central for a company.

The finance manager of the company must configure the system to post payments and expenses. The configuration must include the following capabilities:

- Get suggested payments to the external parties based on due dates and available funds.
- Apply customer payments to multiple invoices.
- Submit electronic payments to the bank.
- Reimburse an employee to a dedicated bank account.

You need to recommend the page the company should use for each requirement.

Which page should you recommend posting to for each requirement? To answer, move the appropriate pages to the correct requirements. You may use each page once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content

NOTE: Each correct selection is worth one point.

Pages		Process payments and receipts
☐ Sales Journal	Requirement	Page
☐ Payment Journal	Suggested payments to external parties	
☐ Purchase Journal	Customer payments for multiple invoices	
☐ Cash Receipt Journal	Electronic payments to bank	
	Dedicated bank account for employee reimbursement	

Answer:

Explanation:

Pages		Process payments and receipts
☐ Sales Journal	Requirement	Page
☐ Payment Journal	Suggested payments to external parties	☐ Payment Journal
☐ Purchase Journal	Customer payments for multiple invoices	☐ Cash Receipt Journal
☐ Cash Receipt Journal	Electronic payments to bank	☐ Payment Journal
	Dedicated bank account for employee reimbursement	

Question: 203

A company uses Dynamics 365 Business Central.

An accountant must post sales services in a journal by using a predefined alphanumeric sequence.

The accountant is using multiple general journal batches.

You need to configure invoice numbers for the journal.

Which two fields should you populate? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Posting No Series field in General Journal Templates
- B. No. Series field in General Journal Batches
- C. Posting No. Series field in General Journal Batches
- D. No Series field in General Journal Templates

Answer: A, B

Explanation:

Question: 204

A company uses Dynamics 365 Business Central.

A vendor delivers items within one week after the company orders the items. The vendor ships the items by using a train.

You need to configure the vendor card.

- A. Location code
- B. Shipment method code
- C. Lead time calculation
- D. Base calendar code

Answer: C

Explanation:

Question: 205

DRAG DROP

A company uses Business Central to manage retail product pricing and discounts. The new sales pricing experience has not been enabled.

The company plans to track discounts applied to sales transactions. The company has a specific price list for each customer.

You need to set up item discounts separately to meet business needs.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- From the desired item card, navigate to Set Special Discounts.
- Define the required discount strategy on the Sales & Receivables Setup page.
- Specify the customer who will receive a discount.
- Configure the Standard Sales Lines page and assign it to a customer record.
- Enter the discount percent in the Line Discount % field.

Answer Area

Answer:

Explanation:

Actions

- From the desired item card, navigate to Set Special Discounts.
- Define the required discount strategy on the Sales & Receivables Setup page.

Answer Area

- 1 Specify the customer who will receive a discount.
- 2 Configure the Standard Sales Lines page and assign it to a customer record.
- 3 Enter the discount percent in the Line Discount % field.

Question: 206

DRAG DROP

A company uses Dynamics 365 Business Central.

You need to duplicate a company based on the existing Dynamics 365 Business Central company.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Open the assisted setup page.
- Open the data migration task.
- Use the New function.
- Select tables to copy.

Open the Companies page.
Select a company to copy.

Select the Copy function

Add the new company name.

Answer:

Explanation:

Actions

- ⋮ Open the assisted setup page.
- ⋮ Open the data migration task.
- ⋮ Use the New function.
- ⋮ Select tables to copy.

Answer area

- 1 ⋮ Open the Companies page.
- 2 ⋮ Select a company to copy.
- 3 ⋮ Select the Copy function.
- 4 ⋮ Add the new company name.

Question: 207

You are configuring Dynamics 365 Business Central security settings.

You assign the following permission sets to a user:

Permission set	Object type	Object ID	Insert
CustomerMqmt	Table data	18 (Customer)	Yes
ReceivablesMqmt	Table data	18 (Customer)	Blank

You need to determine how the system handles the user's permissions.

What is the outcome of the user permission configuration?

- A. The permission set order will allow a user to create a new customer.
- B. The Blank option will allow a user to create a new customer.
- C. The Yes option will allow a user to create a new customer.

Answer: C

Explanation:

Question: 208

DRAG DROP

A company uses Dynamics 365 Business Central. You group salespeople into teams and assign each team a Salesperson code.

A salesperson reports that they can see the sales orders for other sales team members.

You need to ensure that sales team members can only see sales orders that they create.

Which four actions should you perform in sequence? To answer, move the appropriate actions from

the list of actions to the answer area and arrange them in the correct order.

Actions

Enter Salesperson/Purchase Code in User Setup.

Enter Sales Responsibility Center.

Select the Permission set and select Permissions.

Select the Security Filter column in Sales Header row.

Select the field number for the Salesperson code

Enter the Salesperson code.

Answer area

Answer:

Explanation:

Actions

Enter Salesperson/Purchase Code in User Setup.

Enter Sales Responsibility Center.

Answer area

1 Select the Permission set and select Permissions.

2 Select the Security Filter column in Sales Header row.

3 Select the field number for the Salesperson code.

4 Enter the Salesperson code.

Question: 209

A company uses Dynamics 365 Business Central.

A user posts a Sales Invoice document that has an incorrect dimension value.

You need to update general ledger entries with the correct dimension value without inserting new ledger entries.

Which option should you use?

- A. Edit List
- B. Reverse Transaction
- C. Edit In Excel
- D. Correct Dimensions

Answer: D

Explanation:

Question: 210

DRAG DROP

You set up a new company for a customer.

The customer requires that two global dimensions be automatically checked at transaction when income statement accounts are used.

You need to set up the requirements for all income statement accounts at once.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- ⌘ Navigate to Account and select Dimensions-Single.
- ⌘ Set up the Dimension Value Code in General Ledger Setup.
- ⌘ Navigate to Chart of Accounts and select the Filter option in the Income/Balance column.
- ⌘ Select all income statement accounts.
- ⌘ Navigate to Account and select Dimensions-Multiple.
- ⌘ Define the dimension code and change Value Posting to Code Mandatory.

Answer area

Answer:

Explanation:

Actions

- 1. Navigate to Account and select **Dimensions-Single**.
- 2. Set up the Dimension Value Code in General Ledger Setup.

Answer area

1. Navigate to Chart of Accounts and select the **Filter** option in the Income/Balance column.
2. Select all income statement accounts.
3. Navigate to Account and select **Dimensions-Multiple**.
4. Define the dimension code and change Value Posting to Code Mandatory.

Question: 211

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result these questions will not appear in the review screen.

A company uses Dynamics 365 Business Central. The company works with physical goods.

The system must automatically populate the Type field on the document line when a user creates a purchase order.

You need to configure the system.

Solution: On the Vendor Card page, select a document layout and then select a custom layout for reports.

Does the solution meet the goal?

A. Yes

B. No

Answer: B

Explanation:
