Question: 1

According to TOGAF, Which of the following are the architecture domains that are commonly accepted subsets of an overall enterprise architecture?

- A. Application, Business, Data, Technology
- B. Capability, Segment, Strategic
- C. Context, Definition, Governance, Transformation
- D. Definition, Realization, Transition, Vision

Answer: A

Question: 2

Which one of the following statements about the structure of the TOGAF 9 document is true?

- A. Part I describes the TOGAF approach to Enterprise Architecture
- B. Part II describes the definitions of terms used and the changes between versions of TOGAF
- C. Part III describes requirements management and is considered to be the core of TOGAF
- D. Part IV describes the ADM: a collection of guidelines and techniques used in TOGAF 9

Answer: A

Question: 3

According to TOGAF, Which one of the following best describes an enterprise architecture?

- A. An architecture of a commercial organization
- B. An architecture that consists of more than one subsidiary company
- C. An architecture that crosses multiple systems, and multiple functional groups within the enterprise
- D. The highest level of architecture that can be achieved in a given organization

Answer: C

Question: 4

In TOGAF, What is the difference between an artifact and a deliverable?

- A. An artifact contains one or more deliverables
- B. Artifacts and deliverables are synonymous; there is no difference between them
- C. Deliverables are prepared by the Project Manager, whereas artifacts are defined by the Architect
- D. Deliverables are reusable, whereas artifacts are unique to a given architecture project
- E. Deliverables are specified as contractual outputs from a project, whereas artifacts are not

Answer: E

Question: 5

Which one of the following lists the main components within the TOGAF Architecture Repository?

- A. Organizational Metamodel, Architecture Capability, Architecture Landscape, Best Practices, Reference Library, Compliance Strategy
- B. Architecture Metamodel, Organizational Capability Model, Application Landscape, SIB, Reference Library, Governance Model
- C. Business Metamodel, Architecture Capability, Architecture Landscape, SIB, Reference Library, Governance Log
- D. Architecture Metamodel, Architecture Capability, Architecture Landscape, SIB, Reference Library, Governance Log

Answer: D

Question: 6

According to the TOGAF Document Categorization Model, Which category describes a technique that is referenced by processes categorized as TOGAF Core and TOGAF Mandated?

- A. TOGAF Guidelines and Techniques
- B. TOGAF Recommended
- C. TOGAF Supporting
- D. TOGAF Extension

Answer: B

Question: 7

Which of the following reasons best describes why the ADM numbering scheme for versioning output is an example and not mandatory?

- A. To show the evolution of deliverables
- B. To permit adaptation as required
- C. To enable use with the Architecture Content Framework
- D. To support change management

Answer: B

Question: 8

According to TOGAF, where should architecture governance artifacts be stored?

- A. In the Integrated Information Infrastructure Reference Model
- B. In the Standards Information Base
- C. In the Foundation Architecture
- D. In the Architecture Repository

Answer: D

Question: 9

Which one of the following best describes the implications of TOGAF being a generic framework?

- A. The organization must utilize an architecture tool in order to tailor the templates for use
- B. It must be adapted to satisfy organization specific requirements
- C. It can be utilized by most enterprises without further customization
- D. It can only be used for enterprise level architecture projects
- E. It should only be employed under the supervision of highly trained consultants

Answer: B

Question: 10

Which of the following is the architecture domain that describes the logical software and hardware capabilities?

- A. Application Architecture
- B. Business Architecture
- C. Data Architecture
- D. Technology Architecture

Answer: D

Question: 11

Which section of the TOGAF document describes the processes, skills and roles to establish and operate an architecture function within an enterprise?

- A. Part II: Architecture Development Method
- B. Part III: ADM Guidelines and Techniques
- C. Part IV: Architecture Content Framework
- D. Part VI: TOGAF Reference Models
- E. Part VII: Architecture Capability Framework

Answer: E

Question: 12

Which one of the following is NOT an element of an architecture framework?

- A. A common vocabulary
- B. A list of recommended standards
- C. A method for designing an information system in terms of building blocks
- D. A set of structures which can be used to develop a broad range of architectures
- E. A system development lifecycle method for software engineering

Answer: E

Question: 13

Which one of the following describes classification methods for architecture and solution artifacts within the Architecture Repository?

- A. Architecture Landscape
- B. Architecture Vision
- C. Enterprise Continuum
- D. Governance Log
- E. Standards Information Base

Answer: C

Question: 14

Complete the sentence. To promote effective architectural activity within the enterprise, TOGAF 9 recommends the establishment of a(n)

- A. Enterprise Architecture Capability
- B. IT Governing Board
- C. Program Management Office
- D. Quality Assurance department
- E. Service Management department

Answer: A

Question: 15

According to the TOGAF Document Categorization Model, Which category is for resources NOT referenced by content within the other categories?

- A. TOGAF Core
- B. TOGAF Extension

- C. TOGAF Mandatory
- D. TOGAF Recommended
- E. TOGAF Supporting

Answer: E

Question: 16

Which phase of the ADM is used to finalize a set of transition architectures that will support implementation?

- A. Phase D
- B. Phase E
- C. Phase F
- D. Phase G
- E. Phase H

Answer: C

Question: 17

Complete the sentence. TOGAF 9 Part III provides techniques, such as developing principles and gap analysis, to support tasks within the

- A. Architecture Capability Framework
- B. Architecture Continuum
- C. Architecture Development Method
- D. Architecture Landscape
- E. Architecture Repository

Answer: C

Question: 18

According to TOGAF, the recommended dimensions used to define the scope of an architecture include all the following, except:

- A. Architecture Domains
- B. Enterprise Focus
- C. Level of Detail
- D. Subject Matter
- E. Time Period

Answer: D

Question: 19

What level of the Architecture Landscape provides a long-term summary view of the entire enterprise?

- A. Capability Architecture
- B. Operational Architecture
- C. Segment Architecture
- D. Strategic Architecture
- E. Tactical Architecture

Answer: D

Question: 20

What part of the Architecture Repository holds specifications to which architectures must conform?

- A. Standards Information Base
- B. Enterprise Continuum
- C. Governance Log
- D. Architecture Landscape
- E. Reference Library

Answer: A

Question: 21

An association of companies has defined a data model for sharing inventory and pricing information.

Which of the following best describes where this model would fit in the Architecture Continuum?

- A. Foundation Architecture
- B. Common Systems Architecture
- C. Industry Architecture
- D. Organization Specific Architecture
- E. Product Line Architecture

Answer: C

Question: 22

In the Solutions Continuum, Which of the following is the correct order of Solutions from most- specific to most-generic?

- A. Common Systems, Foundation, Industry, Organization-Specific
- B. Organization-Specific, Industry, Foundation, Common Systems

- C. Foundation, Common Systems, Industry, Organization-Specific
- D. Industry, Foundation, Common Systems, Organization-Specific
- E. Organization-Specific, Industry, Common Systems, Foundation

Answer: E

Question: 23

Which one of the following is a key objective of Phase A of the TOGAF ADM?

- A. To create a roadmap that describes the evolution of the architecture over time
- B. To prepare a Solution Architecture for the enterprise
- C. To define an IT Strategy that maps out the technology infrastructure
- D. To allocate the resources needed to implement the architecture project
- E. To articulate an Architecture Vision

Answer: E

Question: 24

What document is used to initiate a TOGAF ADM cycle?

- A. Architecture Roadmap
- B. Statement of Architecture Work
- C. Architecture Landscape
- D. Request for Architecture Work
- E. Architecture Vision

Answer: D

Question: 25

According to TOGAF, Which of the following is the usual approach for developing the Baseline Business Architecture if no architecture or few architecture assets exist?

- A. Bottom up
- B. Envisioning
- C. Extensive
- D. Refactoring
- E. Top down

Answer: A

Question: 26

Which phase of the TOGAF ADM is the first phase directly concerned with the planning for the implementation of the target architecture(s)?

- A. Phase D
- B. Phase E
- C. Phase F
- D. Phase G
- E. Phase H

Answer: B

Question: 27

Which phase of the ADM focuses on the governance and management of the Architecture Contracts that cover the overall implementation and deployment process?

- A. Requirements Management
- B. Phase E
- C. Phase F
- D. Phase G
- E. Phase H

Answer: D

Question: 28

Complete the sentence. A server consolidation project that does not change the operating characteristics of the applications would require

- A. a complete ADM cycle
- B. a complete re-architecting change
- C. a full revision of the enterprise architecture
- D. an incremental change
- E. a simplification change

Answer: E

Question: 29

Which one of the following is an objective of the Preliminary Phase of the ADM?

- A. To define, scope and prioritize architecture tasks
- B. To define the architecture principles
- C. To develop a Target Business Architecture
- D. To obtain management commitment for this cycle of the ADM
- E. To prioritize work packages

Answer: B

Question: 30

In the Preliminary Phase, Which of the following drives the requirements and performance metrics when scoping the enterprise architecture work?

- A. Architecture governance
- B. Business imperatives
- C. Solution architecture
- D. Service level agreements
- E. Time horizon

Answer: B

Question: 31

The Requirements Management Phase is responsible for Which one of the following activities?

- A. Addressing requirements
- B. Disposal of resolved requirements
- C. Generating requirements
- D. Managing the flow of requirements
- E. Prioritizing requirements

Answer: D

Question: 32

Complete the sentence. The Business Transformation Readiness Assessment technique is primarily focused on

- A. determining if the organization is ready to accept change
- B. planning the migration steps needed to achieve the transformation
- C. ensuring that there are adequate trained developers and engineers to implement the solution
- D. ensuring that there is sufficient financial capacity to execute the desired transformation
- E. determining if there is adequate stakeholder support for the implementation process

Answer: A

Question: 33

Which of the following statements does NOT correctly describe Architecture Principles?

- A. They are most effective when they are embraced and used across the organization
- B. They are based on enterprise principles
- C. They are detailed policies that prescribe behaviors and requirements
- D. Even though they may appear generic, they should be tailored to reflect an organization's culture and

goals

Answer: C

Question: 34

Complete the sentence. All of the following are sections of the recommended template for defining Architecture Principles, except

- A. Name
- B. Statement of Principle
- C. Rationale
- D. Enforcement Policy
- E. Implications

Answer: D

Question: 35

Which one of the following lists the five quality criteria for defining Architecture Principles?

- A. Rational, Explained, Precise, Stated, Identifiable
- B. Comprehensive, Future proof, Short, Concise, Consistent
- C. Open, Enabling, Flexible, Agile, Dynamic
- D. Stable, Understandable, Complete, Robust, Consistent

Answer: D

Question: 36

Complete the sentence. The key purpose of Gap Analysis is to

- A. establish quality parameters for the architecture
- B. identify potential missing or overlapping functions
- C. validate nonfunctional requirements
- D. identify commercial building blocks to be purchased
- E. determine the required service levels for the architecture

Answer: B

Question: 37

Complete the sentence. In a gap analysis, a building block that appears in the Target Architecture but does not appear in the Baseline Architecture indicates

- A. nonconformant solution building blocks
- B. an error has occurred and the architecture must be re-evaluated
- C. requirements have not been properly documented

- D. functionality that should be eliminated
- E. a new function that must be built or procured

Answer: E

Question: 38

Complete the sentence. All of the following are parts of the conceptual structure of the TOGAF Architecture Governance Framework, except

- A. Content
- B. Context
- C. Process Flow Control
- D. Repository
- E. Vision

Answer: E

Question: 39

Complete the sentence. The Architecture Board is typically responsible and accountable for achieving all of the following goals except

- A. ensuring consistency between sub-architectures
- B. approving the strategic business plans proposed by individual organization units within the enterprise
- C. enforcement of architecture compliance
- D. identifying and approving components for reuse
- E. providing the basis for all decision-making with regard to changes to the architecture

Answer: B

Question: 40

Which of the following best describes the purpose of an architecture compliance review?

- A. To review the validity of a project's Architecture Vision
- B. To review a project for compliance to external laws and regulations
- C. To review a project against established architecture criteria and business objectives
- D. To ensure that stakeholder concerns are being addressed by a project

Answer: C

Question: 41

TOGAF provides guidelines on how to use the ADM to establish an architecture capability. Which one of the following is NOT a correct guideline?

- A. Use the same approach as with any other capability
- B. Regard the establishment as an ongoing practice
- C. Apply the ADM with the specific vision to establish the practice
- D. Treat the establishment as a one-off project

Answer: D

Question: 42

Which one of the following is defined by TOGAF as: the fundamental organization of a system embodied in its components, their relationship to each other, and the principles guiding its design and evolution?

- A. Architecture
- B. Metamodel
- C. Model
- D. Ontology
- E. Pattern

Answer: A

Question: 43

Complete the sentence. In TOGAF, architecture viewpoints represent

- A. observations of the CIO/CTO
- B. opinions of the sponsors
- C. observations of the architect staff
- D. concerns of stakeholders
- E. stakeholder requirements

Answer: D

Question: 44

Which one of the following statements about TOGAF Building Blocks is NOT true?

- A. They should not be reused in other enterprise architecture projects
- B. They should have stable, published interfaces that allow other building block to interoperate with them
- C. They are packages of functionality intended to meet the business needs across the organization
- D. They have defined boundaries

Answer: A

Question: 45

Which pair of the following responses best completes the sentence? Architecture building blocks _____ where as Solution Building blocks _____

- A. are assembled; are single function components
- B. are single function components; are groups of architecture building blocks
- C. are reusable; are not reusable
- D. define the architecture; provide the existing legacy system
- E. define functionality; define the implementation of functionality

Answer: E

Question: 46

According to TOGAF, Which of the following best describes the purpose of the Architecture Definition Document?

- A. An agreement between development partners and sponsors on the deliverables
- B. A description to allow measurement of the compliance of the implementation
- C. A description to communicate the intent of the architect
- D. A document that triggers the start of an architecture development cycle
- E. A set of general rules and guidelines

Answer: C

Question: 47

According to TOGAF, who usually initiates a Request for Architecture Work?

- A. The architecture organization
- B. The CIO/CTO
- C. The corporate governance board
- D. The senior management
- E. The sponsoring organization

Answer: E

Question: 48

Which of the following is a true statement about the TOGAF Technical Reference Model?

- A. The TOGAF Architecture Development Method mandates the use of the Technical Reference Model for large complex architecture projects
- B. The Technical Reference Model is an integral part of the TOGAF Architecture Development Method
- C. The Technical Reference Model should not be modified
- D. The Technical Reference Model includes a set of graphical models and a corresponding taxonomy
- E. The Technical Reference Model provides a direct mapping to the Zachman Framework

Answer: D

Question: 49

Complete the sentence. The Integrated Information Infrastructure Reference Model (III-RM) is an example of a

(n)

Architecture reference model

- A. Application
- B. Business
- C. Data
- D. Technology

Answer: A

Question: 50

Complete the sentence. According to TOGAF, the simplest way of thinking about the Enterprise Continuum is as a

- A. Configuration Database
- B. library of architecture artifacts
- C. Requirements Management System
- D. Standards Information Base
- E. view of the Architecture Repository

Answer: E

Question: 51

What class of architectural information within the Architecture Repository defines processes that support governance of the Architecture Repository?

- A. Architecture Capability
- B. Architecture Landscape
- C. Architecture Metamodel
- D. Governance Log
- E. Reference Library

Answer: A

Question: 52

Which one of the following is the most generic artifact in the Architecture Continuum?

- A. Common Systems Architecture
- B. Foundation Architecture
- C. Industry Architecture
- D. Organization Specific Architecture
- E. Product Line Architecture

Answer: B

Question: 53

Complete the sentence. As the architecture evolves, the assets in the Solutions Continuum progress towards a (n)

- A. Common Systems Architecture
- B. Industry Specific Architecture
- C. Foundation Solution
- D. Organization Specific Solution
- E. Technology Neutral Implementation

Answer: D

Question: 54

In which ADM phase are the business principles, business goals and strategic drivers first validated?

- A. Preliminary Phase
- B. Phase A
- C. Phase B
- D. Phase H
- E. Requirements Management Phase

Answer: B

Question: 55

Which one of the following best describes a primary use of the Architecture Vision document?

- A. A checklist for compliance reviews
- B. An evaluation tool to select vendors to conduct a proof of concept demonstration
- C. A tool for calculating detailed cost estimates
- D. A tool for project planning the implementation activities
- E. A tool for selling the benefits of the proposed capability to stakeholders

Answer: E

Question: 56

Which of the following is NOT an objective for Phase B, Business Architecture?

- A. Defining the Strategic Business Plan
- B. Describing the Baseline Business Architecture
- C. Developing the Target Business Architecture
- D. Selecting relevant viewpoints for key stakeholders

Answer: A

Question: 57

Which one of the following is NOT an objective for Phase C, Data Architecture?

- A. Defining an architecture that can be understood by the stakeholders
- B. Defining an architecture that is complete and consistent
- C. Defining an architecture that is stable
- D. Defining data entities that are normalized to minimize update anomalies
- E. Defining data entities relevant to the enterprise

Answer: D

Question: 58

Which one of the following is the most relevant model for use in Phase C, Application Architecture?

- A. The ARTS data model
- B. The Integrated Information Infrastructure Reference Model
- C. The Resource-Event-Agent model
- D. The STEP framework
- E. The TOGAF Technical Reference Model

Answer: B

Question: 59

In Phase G, What document establishes the connection between the architecture organization and the implementation organization?

- A. Architecture Contract
- B. Architecture Landscape
- C. Architecture Roadmap
- D. Requirements Impact Statement
- E. Transition Architecture

Answer: A

Question: 60

Which one of the following is NOT part of the approach to Phase H – Architecture Change Management?

- A. Business Scenarios
- B. Capacity Measurement
- C. Change Management
- D. Measuring Business Growth

Answer: A

Question: 61

When determining the requirements for enterprise architecture work in the Preliminary Phase, Which of the following is not a business imperative that should be considered?

- A. Business requirements
- B. Cultural aspirations
- C. Forecast financial requirements
- D. Strategic Intent
- E. Technical elegance

Answer: E

Question: 62

Which phase of the ADM is an on-going activity that is visited throughout a TOGAF architecture project?

- A. Architecture Change Management
- B. Implementation governance
- C. Migration planning
- D. Preliminary Phase
- E. Requirements Management

Answer: E

Question: 63

Which of the following statements best describes risk management in the ADM?

- A. Risk analysis is best conducted in the Architecture Vision phase so that the risk is eliminated in subsequent phases
- B. Risk analysis should be carried out first in the Migration Planning phase
- C. Risk analysis is outside the scope of enterprise architecture projects
- D. Risk is pervasive in all enterprise architecture activity and should be managed in all phases of the ADM
- E. The only risks that are within the scope of enterprise architecture are technological risks

Answer: D

Question: 64

Which of the following best describes capability based planning?

- A. A business planning technique that focuses on business outcomes
- B. A business planning technique that focuses on horizontal capabilities
- C. A business planning technique that focuses on vertical capabilities

D. A human resource planning technique that focuses on capable architects

Answer: A

Question: 65

Which of the following is a technique recommended by TOGAF to help identify and understand requirements?

- A. Architecture Maturity Models
- B. Business Scenarios
- C. Gap Analysis
- D. Mind Maps
- E. SWOT Analysis

Answer: B

Question: 66

Which one of the following provides a foundation for making architecture and planning decisions, framing policies, procedures, and standards, and supporting resolution of contradictory situations?

- A. Architecture principles
- B. Buy lists
- C. Procurement policies
- D. Requirements
- E. Stakeholder concerns

Answer: A

Question: 67

Which one of the following is recommended to define requirements and articulate the Architecture Vision created in Phase A?

- A. Business scenario
- B. Impact analysis
- C. Mission statement
- D. Requirements analysis
- E. Solution architecture

Answer: A

Question: 68

Gap Analysis is a technique used in Phases B, C, D and E. Which one of the following statements best describes the gap analysis technique?

- A. It highlights areas of stakeholder concern
- B. It highlights the impacts of change
- C. It highlights services that are yet to be developed
- D. It highlights services that are available
- E. It highlights different viewpoints

Answer: C

Question: 69

Which one of the following is the practice by which the enterprise architecture and other architectures are managed and controlled at an enterprise level?

- A. Architecture governance
- B. Corporate governance
- C. IT governance
- D. Technology governance
- E. The program management office

Answer: A

Question: 70

Which one of the following does TOGAF Part VII recommend in order to implement an Enterprise Architecture Capability?

- A. Develop an Architecture Roadmap
- B. Populate the Architecture Repository
- C. Populate the Enterprise Continuum
- D. Use the Architecture Development Method
- E. Use the Implementation Governance Phase

Answer: D

Question: 71

Which one of the following is an essential aspect of architecture governance?

- A. Authoring the Architecture Definition Document
- B. Ensuring the compliance of individual projects to the enterprise architecture
- C. Controlling the implementation and deployment organizations
- D. Authoring the Communications Plan for a given architecture project
- E. Conducting Business Scenarios

Answer: B

Question: 72

Which one of the following describes a purpose of an Architecture Compliance review?

- A. To define the capabilities of the organization
- B. To communicate the technical readiness of the project
- C. To evaluate the readiness of the organization to undergo change
- D. To produce a new Request for Architecture Work

Answer: B

Question: 73

Complete the sentence by selecting the applicable pair of words. According to TOGAF, a/an _____ is used to describe the _____ of a stakeholder.

- A. activity model, perspective
- B. viewpoint, requirements
- C. view, concerns
- D. Node Connectivity Diagram, interconnections
- E. Architecture trade-off analysis, constraints

Answer: C

Question: 74

Complete the sentence. In TOGAF, every architecture view has an associated _____ that describes it, at least implicitly.

- A. architecture building block
- B. architecture model
- C. architecture vision
- D. requirement
- E. viewpoint

Answer: E

Question: 75

Which one of the following statements about TOGAF Building Blocks is NOT true?

- A. They are a package of functionality intended to meet the business needs across the organization
- B. They should have stable, published interfaces that allow other building blocks to interoperate with them
- C. They are equivalent to software component objects or web services
- D. They may have multiple implementations but with different, interdependent Building Blocks
- E. They may be assembled from other Building Blocks

Answer: C

Question: 76

Complete the sentence. In TOGAF, legacy systems and processes that are going to be used again in the future

are considered

- A. Architecture Building Blocks
- B. Components
- C. Patterns
- D. Re-usable Building Blocks
- E. Solution Building Blocks

Answer: D

Question: 77

Which of the following statements best describes the purpose of the Architecture Requirements Specification?

- A. A document that triggers the start of an architecture development cycle
- B. A qualitative view of the solution to communicate the intent of the architect
- C. A quantitative view of the solution to measure the implementation
- D. A record of deviations from the planned architectural approach

Answer: C

Question: 78

Which one of the following best describes the purpose of the Communications Plan?

- A. To ensure that architecture information is communicated to the right stakeholders at the right time
- B. To evangelize the architecture to the end user community
- C. To keep the Architecture Review Board informed of changes to the architecture
- D. To ensure that the outcomes of a Compliance Assessment are distributed to the members of the Architecture Review Board

Answer: A

Question: 79

Complete the sentence. The TOGAF Technical Reference Model

- A. is an example and should be tailored to the needs of an organization
- B. must be used "as is" for developing comprehensive architecture models
- C. contains several industry specific frameworks
- D. is intended to contain the Enterprise Continuum
- E. contains only solution building blocks

Answer: A

Question: 80

The statement, "Getting information to the right people at the right time in a secure, reliable manner in order to support the operations that are core to the extended enterprise" describes the concept of

- A. Boundaryless Information Flow
- B. Interoperability
- C. Portability
- D. Service Oriented Architecture
- E. Semantic Web

Answer: A

Question: 81

Which of the following TOGAF components was created to enable architects to design architectures addressing Boundaryless Information Flow?

- A. The Architecture Repository
- B. The Enterprise Continuum
- C. The Integrated Information Infrastructure Model
- D. The TOGAF Technical Reference Model

Answer: C

Question: 82

Which of the following best describes the TOGAF Technical Reference Model?

- A. It is a detailed data model that can be tailored to specific industries
- B. It is an example of a Common Systems Architecture
- C. It is a fundamental architecture upon which more specific architectures can be based
- D. It is a model of application components and application services software, including brokering applications

Answer: C

Question: 83

Which one of the following statements about the structure of the TOGAF 9 document is true?

- A. Part I, the Enterprise Continuum, describes a model for structuring a virtual repository
- B. Part II, the Architecture Development Method, describes the definitions of terms used in TOGAF, and the changes between versions of TOGAF

- C. Part III, Tools and Support, describes a collection of guidelines and techniques used in the other parts of TOGAF
- D. Part VI, TOGAF Reference Models, includes a model for release management of the TOGAF specification
- E. Part VII, the Architecture Capability Framework, describes processes and skills to establish an enterprise function

Answer: E

Question: 84

Which phase of the ADM ensures that implementation projects conform to the defined architecture?

- A. Requirements Management
- B. Phase D
- C. Phase F
- D. Phase G
- E. Phase H

Answer: D

Question: 85

Complete the sentence. The Requirements Management Phase

- A. addresses and resolves requirements between ADM phases
- B. is a central process that prioritizes requirements for all ADM phases
- C. is used to dispose of resolved requirements for all ADM phases
- D. generates new requirements and passes them to all ADM phases
- E. stores requirements and manages their flow into relevant ADM phases

Answer: E

Question: 86

Which one of the following is an objective of the Preliminary Phase of the ADM?

- A. To define the Baseline Architecture for this cycle of the ADM
- B. To define the application systems for the Target Architecture
- C. To define the framework and methodologies to be used
- D. To define the relevant stakeholders and their concerns
- E. To define and prioritise work packages

Answer: C

Question: 87

According to TOGAF, when creating views for a particular architecture, What is the recommended first step?

- A. Design a viewpoint to address all stakeholder concerns
- B. Develop views for the target architecture first
- C. Ensure completeness of the architecture
- D. Refer to existing libraries of viewpoints, to identify one for re-use

Answer: D

Question: 88

Which of the following architectures in the Architecture Continuum contains the most re-usable architecture elements?

- A. Common Systems Architectures
- B. Foundation Architectures
- C. Industry Architectures
- D. Organization-Specific Architectures

Answer: B

Question: 89

Which of the following describes the Architecture Vision document?

- A. A description of individual change increments showing progression from the baseline to target architecture
- B. A detailed schedule for implementation of the target architecture
- C. A high level description of the baseline and target architectures
- D. A joint agreement between the development team and sponsor on the deliverables and quality of an architecture
- E. A set of rules and guidelines to support fulfilling the mission of the organization

Answer: C

Question: 90

According to TOGAF, Which of the following best describes how the Enterprise Continuum is used in organizing and developing an architecture?

- A. It is used to coordinate with the other management frameworks in use
- B. It is used to describe how an architecture addresses stakeholder concerns
- C. It is used to identify and understand business requirements
- D. It is used to provide a system for continuous monitoring
- E. It is used to structure re-usable architecture and solution assets

Answer: E

Question: 91

What document is sent from the sponsoring organization to the architecture organization to trigger the start of an ADM cycle?

- A. Architecture Contract
- B. Architecture Definition Document
- C. Architecture Vision
- D. Request for Architecture Work
- E. Statement of Architecture Work

Answer: D

Question: 92

According to TOGAF, Which of the following best describes Architecture Governance?

- A. A categorization mechanism for architecture and solution artifacts
- B. A framework for operational and change activity
- C. A method for designing an information system in terms of a set of building blocks
- D. The lifecycle management of information and related technology used by an organization
- E. The practice by which enterprise architectures are controlled at an enterprise-wide level

Answer: E

Question: 93

Which component within the Architecture Repository holds best practice or template materials that can be used to construct architectures?

- A. Architecture Capability
- B. Architecture Landscape
- C. Architecture Metamodel
- D. Governance Log
- E. Reference Library

Answer: E

Question: 94

Complete the sentence. According to TOGAF, all the following are responsibilities of an Architecture Board, except

- A. Allocating resources for architecture projects
- B. Decision making for changes in the architecture

- C. Enforcing Architecture Compliance
- D. Improving the maturity of the organization's architecture discipline
- E. Production of governance materials

Answer: A

Question: 95

According to TOGAF, Which of the following best describes the purpose of a Compliance Assessment?

- A. To ensure that architecture information is communicated to the right stakeholders at the right time
- B. To govern the architecture throughout its implementation process
- C. To provide a high-level view of the end architecture product
- D. To show progression of change from the Baseline Architecture to the Target Architecture

Answer: B

Question: 96

Which of the following describes a key objective of the Technology Architecture Phase?

- A. To define the solution architecture needed to support the Application Architecture
- B. To define technology components into a set of technology platforms
- C. To define the Transition Architectures needed to achieve the Target Architecture
- D. To develop a migration plan to deliver incremental capabilities
- E. To select a set of technology products that will form the basis of a solution architecture

Answer: B

Question: 97

Which one of the following statements best describes why the ADM should be adapted?

- A. To align it closer to the business
- B. To make the use more realistic
- C. To move through the cycle faster
- D. To suit the specific needs of the enterprise

Answer: D

Question: 98

In Which phase of the TOGAF ADM are Gap Analysis results from earlier phases consolidated?

- A. Phase D

- B. Phase E
- C. Phase F
- D. Phase G
- E. Phase H

Answer: B

Question: 99

Which of the following best describes the purpose of a business scenario?

- A. To define and plan an enterprise architecture transformation based on Capability-Based Planning
- B. To develop a set of general rules and guidelines for the architecture being developed
- C. To develop a set of security guidelines for the architecture being developed
- D. To help identify and understand the business requirements that an architecture must address
- E. To identify and mitigate the risks when implementing an architecture project

Answer: D

Question: 100

According to TOGAF, Which of the following best describes the classification of architectural change in the case where multiple server systems are being consolidated to a single system?

- A. A bottom-up change to enhance operational capability
- B. An incremental change handled via change management techniques
- C. A re-architecting change that puts the whole architecture through an ADM cycle
- D. A revision change of the enterprise architecture
- E. A simplification change handled via change management techniques

Answer: E

Topic 2, Exam Pool B

Question: 101

Which of the following statements best describes the purpose of enterprise architecture?

- A. To allow an enterprise to exploit the latest trends in technology
- B. To enable the CIO to take effective control of the business units across an enterprise
- C. To ensure compliance in an enterprise to corporate auditing standards
- D. To optimise an enterprise into an environment that is responsive to business needs
- E. To provide a set of standards that all actors must adhere to within an enterprise

Answer: D

Question: 102

Which of the following statements best describes how Architecture Principles are used within the ADM?

- A. They are used to define the framework and detailed methodologies
- B. They are used to define stakeholders and their concerns
- C. They are used to determine the readiness factors impacting the organization
- D. They are used to guide decision making within the enterprise
- E. They are used to resolve and dispose of requirements

Answer: D

Question: 103

Which of the following statements about TOGAF Building Blocks and their use in the ADM cycle is correct?

- A. Building Blocks become more implementation-specific in Phase E
- B. Building Blocks in phases D, E and F are evolved to a common pattern of steps
- C. Building Blocks should be identified in abstract form as part of the Preliminary Phase
- D. Building Blocks should be first selected in Phase D

Answer: A

Question: 104

Which one of the following is an objective of Phase A of the TOGAF ADM?

- A. To allocate the resources needed to implement the architecture project
- B. To define the framework that is going to be used to develop the enterprise architecture
- C. To define an IT Strategy that maps out the technology infrastructure
- D. To prepare a Solution Architecture for the enterprise
- E. To secure formal approval to proceed

Answer: E

Question: 105

Complete the sentence. TOGAF 9 Part III provides a set of resources that can be used to adapt and modify the

- A. Architecture Capability
- B. Architecture Development Method
- C. Architecture Landscape
- D. Architecture Repository

E. Enterprise Continuum

Answer: B

Question: 106

Which of the following best describes how TOGAF defines an enterprise?

- A. Any collection of organizations that has a common set of goals
- B. Any corporation with more than 10,000 employees
- C. Any organization involved in commerce
- D. Any organization whose stock is traded
- E. Any set of organizations based at the same geographic location

Answer: A

Question: 107

Which of the following is an objective of Phase B, Business Architecture?

- A. To confirm the ability of the enterprise to undergo change
- B. To demonstrate how stakeholder concerns are addressed in the Business Architecture
- C. To develop a Target Technology Architecture to support the business
- D. To finalize the Architecture Vision and Architecture Definition documents
- E. To maximize the business value from the architecture

Answer: B

Question: 108

Which section of the TOGAF template for Architecture Principles should highlight the business benefits for adhering to the principle?

- A. Implications
- B. Name
- C. Rationale
- D. Statement

Answer: C

Question: 109

Which of the following is defined by TOGAF as a representation of a system from the perspective of a related set of concerns?

- A. Architecture Building Block
- B. Capability Architecture

- C. Statement of Work
- D. View
- E. Viewpoint

Answer: D

Question: 110

Complete the sentence. The TOGAF Architecture Governance Framework includes

- A. a list of responsibilities for running an Architecture Board
- B. a model for governance including process, content and context
- C. guidance for establishing an Architecture Capability using the ADM
- D. the Architecture Compliance review process and checklists

Answer: B

Question: 111

In the Solutions Continuum, Which of the following is the correct order of solutions ranging from generic solution to enterprise specific solution?

- A. Foundation, Common Systems, Industry, Organization-Specific
- B. Industry, Foundation, Common Systems, Organization-Specific
- C. Organization-Specific, Industry, Common Systems, Foundation
- D. Organization-Specific, Industry, Foundation, Common Systems

Answer: A

Question: 112

Which one of the following best describes the purpose of ADM Phase E?

- A. To define the initial implementation plans
- B. To define the scope, identifying stakeholders and obtaining approvals
- C. To develop the Technology Architecture
- D. To manage requirements throughout the ADM
- E. To perform architectural oversight for the implementation

Answer: A

Question: 113

Which one of the following categories from the Document Categorization model consists of the normative parts of TOGAF which are considered central to its usage?

- A. TOGAF Core
- B. TOGAF Mandated

- C. TOGAF Recommended
- D. TOGAF Referenced
- E. TOGAF Supporting

Answer: B

Question: 114

Which one of the following statements about TOGAF Building Blocks is true?

- A. Building blocks at a functional level are known as Solutions Building Blocks
- B. Solutions Building Blocks are selected in Phases A, B, C and D
- C. The specification of a building block should be loosely coupled to its implementation
- D. The gap analysis technique should be used to identify building blocks for re-use

Answer: C

Question: 115

What part of the Architecture Repository shows the building blocks that are currently in use within the organization?

- A. Architecture Landscape
- B. Architecture Metamodel
- C. Governance Log
- D. Reference Library
- E. Standards Information Base

Answer: A

Question: 116

Which one of the following is responsible for the acceptance and sign-off of an Architecture Compliance review?

- A. Architecture Board
- B. Architecture Review Co-ordinator
- C. CIO
- D. Lead Enterprise Architect
- E. Project Leader

Answer: A

Question: 117

According to TOGAF, in which phase of the ADM should an initial assessment of business transformation readiness occur?

- A. Preliminary Phase
- B. Phase A
- C. Phase B
- D. Phase F
- E. Phase G

Answer: B

Question: 118

Complete the sentence. A gap analysis will enable the architect to do all of the following except

- A. identify building blocks that have been inadvertently omitted
- B. identify building blocks that have been intentionally eliminated
- C. identify building blocks to be carried over
- D. identify new building blocks that are needed
- E. identify potential vendors to provide new building blocks

Answer: E

Question: 119

Which of the following best describes an approach for adapting the ADM in the situation where the business case for doing architecture is not well recognized?

- A. Completion of the Business Architecture should follow the Information Systems Architecture
- B. Create an Architecture Vision and then a detailed Business Architecture
- C. Produce a "cut-down" version of the ADM suitable to the resources available
- D. Tailor the ADM in conjunction with another architecture framework that has deliverables specific to the vertical sector
- E. Tailor the ADM to reflect the relationships with, and dependencies on other management processes within the organization

Answer: B

Question: 120

What technique does TOGAF recommend for evaluating the status of an organization to undergo change?

- A. Business Transformation Readiness Assessment
- B. Business Value Assessment Technique
- C. Capability-Based Planning
- D. Communications and Stakeholder Management
- E. Gap Analysis

Answer: A

Question: 121

Which of the following best describes the meaning of "Initial Level of Risk" in Risk Management?

- A. The categorization after implementation of mitigating actions
- B. The categorization after initial risk assessment
- C. The categorization after mitigation and residual risk assessment
- D. The categorization before determining and implementing mitigating actions
- E. The categorization before risk identification

Answer: D

Question: 122

Complete the sentence. According to TOGAF, a view is used to describe how the _____ of a stakeholder are being met.

- A. concerns
- B. constraints
- C. interests
- D. perspective
- E. requirements

Answer: A

Question: 123

Complete the sentence. The Architecture Development Method produces content to be stored in the Repository, Which is classified according to the _____.

- A. ADM Guidelines and Techniques
- B. Architecture Capability Framework
- C. Architecture Capability Model
- D. Enterprise Continuum
- E. Standards Information Base

Answer: D

Question: 124

Which of the following best describes the state of architecture artifacts as a project progresses through ADM Phases A to D?

- A. The artifacts are transformed into solution architectures
- B. The artifacts become increasingly product focused
- C. The artifacts become increasingly generic and re-usable

- D. The artifacts evolve from generic architectures to organization-specific architectures
- E. The artifacts evolve from common systems architectures to foundation architectures

Answer: D

Question: 125

Which of the following describes the Phase H classification for an Incremental change?

- A. A change driven by a requirement to derive additional value from the existing investment
- B. A change driven by a requirement to increase investment in order to create new value for exploitation
- C. A change driven by a requirement to reduce investment
- D. A change driven by a requirement to re-align with the business strategy

Answer: A

Question: 126

Which one of the following statements about viewpoints is correct?

- A. A viewpoint is always specific to an architecture
- B. A viewpoint is used to create views in Phases E and F
- C. A viewpoint is used as a template to create a view
- D. A viewpoint is what a stakeholder sees

Answer: C

Question: 127

According to TOGAF, in which sequence should Application Architecture and Data Architecture be developed in Phase C?

- A. Application Architecture should be developed first, then Data Architecture
- B. Application Architecture should be developed concurrently with Data Architecture
- C. Data Architecture should be developed first, then Application Architecture
- D. Application Architecture and Data Architecture may be developed in either sequence

Answer: D

Question: 128

Which of the following best completes the sentence? The Architecture Repository

- A. is used to store different classes of architectural output created by the ADM
- B. is a categorisation mechanism for classifying architecture and solution artifacts
- C. is a detailed model of architectural work products, including deliverables and artifacts
- D. is an architecture of generic functions and services

E. is a set of resources to help establish an architecture capability within an organization

Answer: A

Question: 129

A key step in validating a proposed target architecture is to consider what may have been forgotten.
What technique does TOGAF recommend to address this issue?

- A. Business Transformation Readiness Assessment
- B. Business Value Assessment Technique
- C. Capability-Based Planning
- D. Communications and Stakeholder Management
- E. Gap Analysis

Answer: E

Question: 130

Complete the sentence. In the Preliminary Phase, all of the following are part of preparing the organization to undertake successful enterprise architecture, except

- A. defining architecture principles
- B. defining relationships between management frameworks
- C. defining the enterprise
- D. evaluating the enterprise architecture maturity
- E. identifying stakeholders and their concerns

Answer: E

Question: 131

Which phase of the ADM establishes a set of Principles?

- A. Preliminary Phase
- B. Phase A
- C. Phase D
- D. Phase G
- E. Phase H

Answer: A

Question: 132

In which Phase of the ADM does the business scenario technique figure most prominently?

- A. Preliminary

- B. Architecture Vision
- C. Business Architecture
- D. Information Systems Architectures
- E. Technology Architecture

Answer: B

Question: 133

Which one of the following best describes the Architecture Vision document?

- A. An agreement between development partners and the sponsor on architecture deliverables
- B. A description of how the new capability will address stakeholder concerns
- C. A description of the scope and approach for completion of the architecture project
- D. A set of quantitative statements outlining requirements on the implementation
- E. A set of rules and guidelines to support fulfilling the mission of the organization

Answer: B

Question: 134

Which of the following best describes TOGAF?

- A. An abstract framework for the development of standards and processes for a business architecture
- B. A collection of components organized to accomplish a specific set of functions
- C. A process model, best practices and assets to aid production, use and maintenance of enterprise architectures
- D. A reference model containing taxonomy defining terminology for an enterprise architecture, together with an associated graphic
- E. A system development lifecycle method for software engineering

Answer: C

Question: 135

Which ADM phase establishes the connection between the architecture organization and the implementation organization through the Architecture Contract?

- A. Phase E
- B. Phase F
- C. Phase G
- D. Phase H
- E. Requirements Management

Answer: C

Question: 136

Which one of the following statements about the Requirements Management phase is true?

- A. All requirements fed into the phase are prioritized, and those of low priority are deferred until the next iteration of the ADM cycle
- B. The phase generates the requirements for a given ADM cycle using the Business Scenario technique
- C. The phase manages the flow of requirements, storing them, and feeding them in and out of the relevant ADM phases
- D. The phase operates like a waiting room, and all requirements fed in to the phase must be resolved by the end of the current ADM cycle
- E. The phase resolves the requirements that are fed into it from the other ADM phases

Answer: C

Question: 137

Which section of the TOGAF template for defining principles should highlight the requirements for carrying out the principle?

- A. Implications
- B. Name
- C. Rationale
- D. Statement

Answer: A

Question: 138

Which one of the following best describes the next step in an Architecture Compliance Review once the scope of the review has been determined?

- A. Interview the project principals to obtain background information
- B. Prepare the Architecture Compliance Review report
- C. Schedule the Architecture Review meeting
- D. Send the assessment report to the Architecture Review co-ordinator
- E. Tailor the checklists to address business requirements

Answer: E

Question: 139

Complete the sentence. During the implementation of an architecture, if the original Architecture Definition and requirements are not suitable, a _____ may be submitted to initiate further architecture work.

- A. Capability Assessment
- B. Change Request
- C. Requirements Impact Analysis
- D. Statement of Architecture Work

Answer: B

Question: 140

Complete the sentence. All of the following describe a purpose of an Architecture Compliance review, except

- A. determining the technical readiness of a project
- B. ensuring the application of best practices
- C. identifying business transformation risks for an architecture project
- D. identifying errors in an architecture project
- E. identifying where architecture standards require modification

Answer: C

Question: 141

According to TOGAF, Which of the following steps in Phases B, C, and D occurs before development of the baseline or target architectures?

- A. Conduct formal stakeholder review
- B. Create Architecture Definition Document
- C. Define Roadmap components
- D. Perform gap analysis
- E. Select reference models, viewpoints and tools

Answer: E

Question: 142

Which ADM phase is responsible for assessing the performance of the architecture and making recommendations for change?

- A. Phase A
- B. Phase E
- C. Phase F
- D. Phase G
- E. Phase H

Answer: E

Question: 143

Which model within TOGAF is intended to assist with the release management of the TOGAF specification?

- A. The Capability Maturity Model

- B. The Document Categorization Model
- C. The Integrated Infrastructure Information Model
- D. The Organizational Model for Enterprise Architecture
- E. The Technical Reference Model

Answer: B

Question: 144

Which ADM phase provides architectural oversight of the implementation?

- A. Preliminary Phase
- B. Phase A
- C. Phase E
- D. Phase G
- E. Phase H

Answer: D

Question: 145

Complete the sentence. The Solutions Continuum represents implementations of the architectures at corresponding levels of the _____.

- A. Architecture Capability
- B. Architecture Continuum
- C. Architecture Landscape
- D. Architecture Metamodel
- E. Architecture Repository

Answer: B

Question: 146

According to TOGAF, how is the Enterprise Continuum used in organizing and developing an architecture?

- A. To aid communication and understanding between architects
- B. To coordinate with the other management frameworks in use
- C. To describe how an architecture addresses stakeholder concerns
- D. To evaluate how best to develop and implement an architecture
- E. To help identify and understand business requirements

Answer: A

Question: 147

According to TOGAF, Which of the following best describes the purpose of the Architecture Roadmap?

- A. To ensure that architecture information is communicated to the right stakeholders at the right time
- B. To evangelize the architecture to the end user community
- C. To govern the architecture through to implementation
- D. To keep the Architecture Review Board informed of changes to the architecture
- E. To show progression of change from the Baseline Architecture to the Target Architecture

Answer: E

Question: 148

What technique does TOGAF recommend that focuses on achieving business outcomes rather than just technical deliverables?

- A. Business Transformation Readiness Assessment
- B. Business Value Assessment Technique
- C. Capability-Based Planning
- D. Communications and Stakeholder Management
- E. Quality Function Deployment

Answer: C

Question: 149

Which model within TOGAF is closely related to the concept of Boundaryless Information Flow?

- A. The ARTS data model
- B. The Architecture Governance Framework
- C. The Enterprise Continuum
- D. The Integrated Information Infrastructure Model
- E. The TOGAF Technical Reference Model

Answer: D

Question: 150

Which one of the following does TOGAF state is an objective for Phase A: Architecture Vision?

- A. To create an implementation and migration strategy
- B. To establish an architecture change management process
- C. To priorities work packages and projects
- D. To validate the business principles, goals, drivers and key performance indicators

Answer: D

Question: 151

In which of the following ADM Phases do building blocks become implementation-specific?

- A. Phase A
- B. Phase B
- C. Phase C
- D. Phase D
- E. Phase E

Answer: E

Question: 152

Which of the following best describes an approach for adapting the ADM in the situation where business principles dictate that a packaged solution be used?

- A. Completion of the Business Architecture should follow the Information Systems Architecture
- B. Create an Architecture Vision and then a detailed Business Architecture
- C. Produce a "cut-down" version of the ADM suitable to the resources available
- D. Tailor the ADM in conjunction with another architecture framework that has deliverables specific to the vertical sector
- E. Tailor the ADM to reflect the relationships with, and dependencies on other management processes within the organization

Answer: A

Question: 153

Which Architecture domain is recommended to be the first architecture work undertaken in the ADM cycle?

- A. Application Architecture
- B. Business Architecture
- C. Data Architecture
- D. Technology Architecture

Answer: B

Question: 154

Complete the sentence. According to TOGAF, all of the following are responsibilities of an Architecture Board, except

- A. Ensuring consistency between sub-architectures
- B. Ensuring flexibility of the enterprise architecture to meet business needs
- C. Improving the maturity of the organization's architecture discipline
- D. Monitoring of architecture contracts
- E. Preparing architecture review reports

Answer: E

Question: 155

Which section of the TOGAF document contains a structured metamodel for architectural artifacts?

- A. Part II: Architecture Development Method
- B. Part III: ADM Guidelines and Techniques
- C. Part IV: Architecture Content Framework
- D. Part VI: TOGAF Reference Models
- E. Part VII: Architecture Capability Framework

Answer: C

Question: 156

Which of the following statements about TOGAF Building Blocks is true?

- A. A good Building Block should not be composed of other Building Blocks
- B. Architecture Building Blocks should be first selected in Phase D
- C. Building Block specifications should be loosely coupled to implementation
- D. Custom developments are known as Architecture Building Blocks

Answer: C

Question: 157

According to TOGAF, Which of the following is a characteristic of a Foundation Architecture?

- A. It contains only solution building blocks
- B. It contains business functions and processes specific to a particular industry sector
- C. It contains building blocks and their corresponding standards
- D. It includes a model of application components and application services software, including brokering applications
- E. It includes models for common high-level business functions, such as supply chain management

Answer: C

Question: 158

Complete the sentence. TOGAF covers the development of four architecture domains, Business, Data, Technology and .

- A. Application
- B. Capability
- C. Segment

- D. Transition
- E. Vision

Answer: A

Question: 159

Which of the following describes an objective of Phase G: Implementation Governance?

- A. Finalize the Implementation and Migration Plan
- B. Establish the recourses for architecture governance
- C. Ensure conformance for the target architecture
- D. Operate the governance framework
- E. Develop the Target Technology Architecture

Answer: C

Question: 160

Which of the following best describes the purpose of the Statement of Architecture Work?

- A. It contains an assessment of the current architecture requirements
- B. It defines the scope and approach to complete an architecture project
- C. It is sent from the sponsor and triggers the start of an architecture development cycle
- D. It provides a high-level aspirational view of the end architecture project
- E. It provides a schedule for implementation of the target architecture

Answer: B

Question: 161

Which of the following describes an objective of the Preliminary Phase?

- A. Develop a vision of the proposed enterprise architecture
- B. Document the baseline architecture
- C. Obtain approval for the Statement of Architecture Work
- D. Operate the governance framework
- E. Select and implement tools

Answer: E

Question: 162

In which part of the ADM cycle do building block gaps become associated with work packages that will address the gaps?

- A. Preliminary Phase and Phase A
- B. Phases B, C, and D
- C. Phase E
- D. Phase F

E. Phases G and H

Answer: C

Question: 163

Which of the following is a responsibility of an Architecture Board?

- A. Allocating resources for architecture projects
- B. Creating the Statement of Architecture Work
- C. Enforcement of architecture compliance
- D. Determining the scope of an architecture compliance review
- E. Conducting assessments of the maturity level of architecture discipline within the organization

Answer: C

Question: 164

According to TOGAF, Which of the following is the reason why Business Architecture is recommended to be first architecture developed?

- A. It contains a high level description of the business strategy for the organization
- B. It is the key document describing how the new architecture capability will meet the business goals
- C. It provides prerequisite knowledge for undertaking work in the other architecture domains
- D. It mobilizes operations to support the ongoing business architecture development

Answer: C

Question: 165

Which of the following best describes the Integrated Information Infrastructure Reference Model?

- A. It can be used to determine the capability level of an enterprise
- B. It is a deliverable from Phase A
- C. It is an Application Architecture Reference Model
- D. It provides a conceptual structure for architecture governance
- E. It supports all the Common Systems Architectures

Answer: C

Question: 166

Complete the sentence. The practice by which the enterprise architecture is managed and controlled at an enterprise level is known as

- A. Architecture governance
- B. Corporate governance
- C. IT governance

- D. Portfolio management
- E. Technology governance

Answer: A

Question: 167

Which of the following best describes the TOGAF classification in Phase H for a re-architecting change?

- A. A change driven by a requirement to derive additional value from the existing investment
- B. A change driven by a requirement to increase investment in order to create new value for exploitation
- C. A change driven by a requirement to reduce costs
- D. A change driven by a requirement to reduce investment
- E. A change driven by a requirement to re-align with the business strategy

Answer: B

Question: 168

Which of the following best describes the purpose of the Business Transformation Readiness Assessment technique?

- A. To determine if the organization is ready to undergo change
- B. To determine if the stakeholders support the implementation plan
- C. To ensure that there are adequate trained engineers to develop the solution
- D. To ensure that there is sufficient funding to execute the transformation
- E. To plan the migration steps needed to achieve the transformation

Answer: A

Question: 169

In which ADM phase is the Implementation and Migration Plan coordinated with other frameworks?

- A. Phase A
- B. Phase E
- C. Phase F
- D. Phase G
- E. Phase H

Answer: C

Question: 170

Which of the following is described by the TOGAF Architecture Content Framework as a type of artifact that shows lists of things?

- A. Building Block
- B. Catalog
- C. Diagram
- D. Matrix
- E. Deliverable

Answer: B

Question: 171

According to TOGAF, Which of the following types of architecture has major characteristics that include open system standards and general building blocks?

- A. Common Systems Architecture
- B. Foundation Architecture
- C. Industry Architecture
- D. Organization-Specific Architecture

Answer: B

Question: 172

TOGAF uses a version numbering convention to illustrate the evolution of the Baseline and Target Architecture Definitions. Which version number in this convention indicates a formally reviewed, detailed architecture?

- A. Version 0.1
- B. Version 0.5
- C. Version 0.9
- D. Version 1.0
- E. Version 1.5

Answer: D

Question: 173

Which of the following best describes the TOGAF Architecture Development Method?

- A. A process for managing architecture requirements
- B. A classification mechanism for architectures and solutions
- C. A process for managing and controlling change at an enterprise-wide level
- D. A view of the Architecture Repository
- E. A process for developing an organization-specific enterprise architecture

Answer: E

Question: 174

Which of the following best describes the need for the ADM process to be governed?

- A. To build a top-down, all inclusive architecture description
- B. To enable development of reference architectures
- C. To enable the architecture domains to be integrated
- D. To ensure that the method is being applied correctly

Answer: D

Question: 175

Which one of the following is an objective of Phase A, Architecture Vision?

- A. Defining architecture principles
- B. Defining relationships between management frameworks
- C. Defining the enterprise
- D. Evaluating the enterprise architecture maturity
- E. Identifying stakeholders and their concerns

Answer: E

Question: 176

Which of the following does TOGAF recommend for use in developing the Architecture Vision?

- A. Architecture principles
- B. Business scenarios
- C. Business Transformation Readiness Assessment
- D. Capability-based planning
- E. Gap analysis

Answer: B

Question: 177

Which one of the following is considered a relevant architecture resource in Phase D?

- A. Generic application models relevant to the organization's industry sector
- B. Generic business models relevant to the organization's industry sector
- C. Generic data models relevant to the organization's industry sector
- D. Generic technology models relevant to the organization's industry sector

Answer: D

Question: 178

In which section of the TOGAF template for Architecture Principles would a reader find the answer to the question of 'How does this affect me'?

- A. Implications
- B. Name
- C. Rationale
- D. Statement

Answer: A

Question: 179

According to TOGAF, Which of the following terms is defined as the key interests that are crucially important to stakeholders?

- A. Concerns
- B. Principles
- C. Requirements
- D. Views
- E. Viewpoints

Answer: A

Question: 180

When using a cycle of the ADM to establish an Architecture Capability as described in TOGAF Part VII, Which architecture would describe the infrastructure requirements?

- A. Application Architecture
- B. Business Architecture
- C. Data Architecture
- D. Technology Architecture
- E. Transition Architecture

Answer: D

Question: 181

Which of the following best describes the class of information known as the Reference Library within the Architecture Repository?

- A. A description of the organization specific architecture framework and method
- B. A record of the governance activity across the enterprise
- C. Guidelines and templates used to create new architectures
- D. Processes to support governance of the Architecture Repository
- E. Specifications to which architectures must conform

Answer: C

Question: 182

Complete the sentence. TOGAF defines five criteria for a good set of principles: Understandable, Robust, Complete, Consistent and

- A. Agile
- B. Dynamic
- C. Comprehensive
- D. Rational
- E. Stable

Answer: E

Question: 183

Complete the sentence. According to TOGAF, a _____ is a representation of a system from the perspective of a related set of _____.

- A. view, concerns
- B. viewpoint, views
- C. view, requirements
- D. view, stakeholders

Answer: D

Question: 184

Which of the following best describes the Standards Information Base?

- A. A repository area holding a description of the organization specific architecture framework and method
- B. A repository area holding a record of the governance activity across the enterprise
- C. A repository area holding guidelines and templates used to create new architectures
- D. A repository area holding processes to support governance of the Architecture Repository
- E. A repository area holding specifications to which architectures must conform

Answer: E

Question: 185

Which of the following best describes the purpose of the Gap Analysis technique?

- A. To determine service levels for the architecture
- B. To establish quality metrics for the architecture
- C. To identify commercial building blocks to be purchased
- D. To identify missing functions
- E. To validate nonfunctional requirements

Answer: D

Question: 186

Which of the following describes how the Enterprise Continuum is used when developing an enterprise architecture?

- A. To coordinate with the other management frameworks in use
- B. To describe how an architecture addresses stakeholder concerns
- C. To identify and understand business requirements
- D. To provide a system for continuous monitoring
- E. To structure re-usable architecture and solution assets

Answer: E

Question: 187

Complete the sentence by selecting the applicable pair of words. A/an _____ is used in Phase A to help identify and understand business _____ that the architecture has to address.

- A. activity model, perspective
- B. business scenario, requirements
- C. use case, interconnections
- D. view, concerns
- E. business transformation readiness assessment, constraints

Answer: B

Question: 188

According to TOGAF, Which of the following best describes an Architecture Pattern?

- A. A detailed description of the interfaces between building blocks
- B. An implementation specific solution building block
- C. A package of functionality defined to meet the business needs of the organization.
- D. A way to put building blocks together into context
- E. A work product describing an aspect of an architecture

Answer: D

Question: 189

Complete the sentence. The TOGAF risk categorization after the implementation of mitigating actions is known as the level of risk.

- A. Critical
- B. Initial
- C. Intermediate
- D. Residual
- E. Unmitigated

Answer: D

Question: 190

Which of the following statements best describes the Requirements Management process?

- A. It is used to develop requirements for Transition Architectures that deliver business value
- B. It is used to dispose of, address and prioritize architecture requirements
- C. It is used to establish requirements for Phase A
- D. It is used to manage architecture requirements throughout the ADM cycle
- E. It is used to review business requirements

Answer: D

Question: 191

Which of the following does TOGAF describe as "a formal description of a system, or a detailed plan of the system at component level to guide its implementation"?

- A. Architecture
- B. Artifact
- C. Deliverable
- D. Model
- E. View

Answer: A

Question: 192

Complete the sentence. The Architecture Landscape is divided into three levels, Strategic, Segment and .

- A. Baseline
- B. Capability
- C. Solution
- D. Target
- E. Transition

Answer: B

Question: 193

In Phases B, C, and D which is the final step in each phase?

- A. Conduct formal stakeholder review
- B. Create Architecture Definition Document
- C. Define Roadmap components
- D. Perform gap analysis
- E. Select reference models, viewpoints and tools

Answer: B

Question: 194

Which part of TOGAF describes taxonomies for categorizing the outputs of architecture activity in terms of reuse?

- A. ADM Guidelines and Techniques
- B. Architecture Capability Framework
- C. Architecture Development Method
- D. Enterprise Continuum & Tools

Answer: D

Question: 195

Which of the following describes a purpose of an Architecture Compliance review?

- A. Identifying business transformation risks for an architecture project
- B. Identifying errors in the project architecture
- C. Identifying relationships between management frameworks
- D. Identifying stakeholders and their concerns

Answer: B

Question: 196

Complete the sentence: TOGAF provides a set of reference materials for establishing an architecture function within an organization known as the .

- A. Architecture Capability Framework
- B. Architecture Content Framework
- C. Architecture Landscape
- D. Architecture Repository
- E. Architecture Roadmap

Answer: A

Question: 197

Which of the following does TOGAF describe as a package of functionality defined to meet business needs across an organization?

- A. An application
- B. An architecture viewpoint
- C. A building block
- D. A deliverable
- E. A solution architecture

Answer: C

Question: 198

According to TOGAF, Which document should incorporate the actions arising from the Business Transformation Readiness Assessment technique?

- A. Architecture Road map
- B. Architecture Requirements Specification
- C. Communications Plan
- D. Implementation and Migration Plan
- E. Implementation Governance Model

Answer: D

Question: 199

Which of the following best describes the purpose of the Architecture Vision?

- A. It contains an assessment of the current architecture requirements
- B. It defines the scope and approach to complete an architecture project
- C. It is sent from the sponsor and triggers the start of an architecture development cycle
- D. It provides a high-level aspirational view of the end architecture project
- E. It provides a schedule for implementation of the target architecture

Answer: D

Question: 200

TOGAF Part VII, Architecture Capability Framework recommends use of an ADM cycle for establishing an architecture practice. In this scenario which architecture would describe the organizational structure for the architecture practice?

- A. Application Architecture
- B. Business Architecture
- C. Data Architecture
- D. Technology Architecture

Answer: B

Question: 201

Which of the following best describes a purpose of the Business Scenarios technique?

- A. To catch errors in a project architecture early
- B. To guide decision making throughout the enterprise
- C. To help identify and understand requirements
- D. To highlight shortfalls between the baseline and target architectures
- E. To mitigate risk when implementing an architecture project

Answer: C

Question: 202

Complete the sentence. The Requirements Management process is used to

- A. develop requirements for Transition Architectures that deliver business value
- B. dispose of, address and prioritize architecture requirements
- C. organize architecture requirements throughout the ADM cycle
- D. review business requirements
- E. validate requirements between ADM phases

Answer: C

Question: 203

Which of the following describes the TOGAF Technical Reference Model?

- A. A Common Systems Architecture
- B. A Foundation Architecture
- C. An Industry-Specific Architecture

- D. An Organization-Specific Architecture
- E. A Solution Architecture

Answer: B

Question: 204

Which of the following is an objective of the Preliminary Phase?

- A. Develop the Architecture Vision document
- B. Draft the Implementation and Migration Plan
- C. Ensure conformance requirements for the target architecture are defined
- D. Establish the Organizational Model for enterprise architecture
- E. Operate the governance framework

Answer: D

Question: 205

Which of the following best describes the class of information known as the Architecture Capability within the Architecture Repository?

- A. A description of the organization specific architecture framework and method
- B. A record of the governance activity across the enterprise
- C. Guidelines and templates used to create new architectures
- D. Processes to support governance of the Architecture Repository
- E. Specifications to which architectures must conform

Answer: D

Question: 206

Complete the sentence. According to TOGAF, an objective of Phase G, Implementation Governance, is to .

- A. assess the performance of the architecture and make recommendations for change
- B. ensure the baseline architecture continues to be fit-for-purpose
- C. ensure conformance with the defined architecture by the implementation projects
- D. establish an architecture change management process for the architecture finalized in the previous ADM phase
- E. operate the governance framework

Answer: C

Question: 207

According to TOGAF, Which of the following activities is described as part of the approach in the Preliminary

Phase of the ADM?

- A. Creating the Architecture Vision deliverable
- B. Defining a set of Architecture Principles
- C. Developing an Architecture Contract
- D. Extending the business scenario with business modeling
- E. Preparing a consolidated Gap Analysis

Answer: B

Question: 208

Which of the following describes the TOGAF classification in Phase H for a simplification change?

- A. A change driven by a requirement to derive additional value from the existing investment
- B. A change driven by a requirement to increase investment in order to create new value for exploitation
- C. A change driven by a requirement to reduce investment
- D. A change driven by a requirement to re-align with the business strategy
- E. A change driven by a requirement to simplify communication between stakeholders

Answer: C

Question: 209

In Phases B, C, and D which is the first step in each phase?

- A. Conduct formal stakeholder review
- B. Create Architecture Definition Document
- C. Define Roadmap components
- D. Perform gap analysis
- E. Select reference models, viewpoints and tools

Answer: E

Question: 210

Complete the sentence. The ADM can be viewed as the process of populating the enterprise's own with relevant re-usable building blocks taken from the more generic side of the Enterprise

Continuum.

- A. Architecture Repository
- B. Architecture Requirements
- C. Implementation and Migration plan
- D. Standards Information Base
- E. Strategic Architecture

Answer: A

Question: 211

Which of the following best describes the concept of Boundaryless Information Flow?

- A. Enabling the vision of an integrated information infrastructure
- B. Getting information to the right people at the right time in a secure, reliable and timely manner
- C. Enabling effective global communications between countries
- D. Enabling the flow of information to all stakeholders
- E. Providing a visual representation of information provider, consumer and brokering applications

Answer: B

Question: 212

According to TOGAF, Which of the following terms describes people who have key roles in, or concerns about, a system?

- A. consumer
- B. CxOs
- C. lead architect
- D. sponsor
- E. stakeholder

Answer: E

Question: 213

In which phase of the ADM cycle do building blocks become implementation-specific?

- A. Phase A
- B. Phase B
- C. Phase C
- D. Phase D
- E. Phase E

Answer: E

Question: 214

According to TOGAF, Which of the following best describes the purpose of an Architecture Definition Document?

- A. To act as a deliverable container for artifacts created during a project
- B. To ensure that architecture information is communicated to the right stakeholders at the right time
- C. To govern the architecture throughout its implementation process

- D. To provide a high-level view of the end architecture product
- E. To show progression of change from the Baseline Architecture to the Target Architecture

Answer: A

Question: 215

Complete the sentence: Building Blocks that are viewed as being at the left-hand side of the Solutions Continuum are known as

- A. Common Systems Solutions
- B. Foundation Solutions
- C. Industry Solutions
- D. Organization-Specific Solutions
- E. Strategic Solutions

Answer: B

Question: 216

Which of the following best describes the TOGAF Architecture Governance Framework?

- A. An approach to ensure the effectiveness of an organization's architectures
- B. An architecture of building blocks and corresponding standards, together with associated graphics
- C. An example set of Architecture Principles
- D. A reference model that includes information provider applications and brokering applications
- E. A model intended to assist with the release management of the TOGAF specification itself

Answer: A

Question: 217

Complete the sentence. The Enterprise Continuum provides methods for classifying architecture artifacts as they evolve from

- A. Foundation Architectures to re-usable architecture assets
- B. generic architectures to Organization-Specific Architectures
- C. generic solutions to Industry Models
- D. generic architectures to reusable Solution Building Blocks
- E. Solutions Architectures to Solution Building Blocks

Answer: B

Question: 218

Which of the following describes an objective of Phase F: Migration Planning Phase?

- A. Develop a Target Technology Architecture

- B. Consolidate the Gap Analysis results from Phases B through D
- C. Generate and gain consensus on an initial Architecture Roadmap
- D. Coordinate the Implementation and Migration Plan with other frameworks
- E. Operate the governance framework and manage an architecture contract

Answer: D

Question: 219

Complete the sentence. TOGAF covers the development of four architecture domains, Application, Business, Data and .

- A. Capability
- B. Segment
- C. Technology
- D. Transition
- E. Vision

Answer: C

Question: 220

Which of the following best describes a purpose of the Gap Analysis technique?

- A. To catch errors in a project architecture early
- B. To guide decision making throughout the enterprise
- C. To help identify and understand business requirements
- D. To highlight shortfalls between the baseline and target architectures
- E. To mitigate risk when implementing an architecture project

Answer: D

Question: 221

According to TOGAF, Which of the following define general rules and guidelines for the use of assets across the enterprise?

- A. Architecture principles
- B. Business scenarios
- C. Functional Requirements
- D. Procurement policies
- E. Stakeholder concerns

Answer: A

Question: 222

Which ADM Phase includes obtaining approval for the Statement of Architecture Work?

- A. Preliminary Phase
- B. Phase A: Architecture Vision
- C. Phase B: Business Architecture
- D. Phase F: Migration Planning
- E. Phase G: Implementation Governance

Answer: B

Question: 223

Which section of the TOGAF template for Architecture Principles highlights the requirements for carrying out the principle?

- A. Implications
- B. Name
- C. Rationale
- D. Statement

Answer: A

Question: 224

TOGAF uses a version numbering convention to illustrate the evolution of the Baseline and Target Architecture Definitions. Which version number in this convention indicates a high-level outline of the architecture?

- A. Version 1.0
- B. Version 0.9
- C. Version 0.5
- D. Version 1.5
- E. Version 0.1

Answer: E

Question: 225

In which ADM phase is the goal to ensure that the architecture achieves its original target business value?

- A. Phase E
- B. Phase F
- C. Phase G
- D. Phase H

E. Preliminary Phase

Answer: D

Question: 226

Which ADM phase starts with the receipt of a Request for Architecture Work from the sponsoring organization?

- A. Phase A
- B. Phase B
- C. Phase H
- D. Preliminary Phase
- E. Requirements Management

Answer: A

Question: 227

Which of the following is described by the TOGAF Architecture Content Framework as a type of artifact that shows relationships between things?

- A. Building Block
- B. Catalog
- C. Diagram
- D. Matrix
- E. Deliverable

Answer: D

Question: 228

Complete the sentence. TOGAF defines five criteria for a good set of principles: Complete, Consistent, Stable, Understandable and .

- A. Agile,
- B. Dynamic
- C. Comprehensive
- D. Robust
- E. Strategic

Answer: D

Question: 229

Which one of the following best describes an Architecture Compliance Review?

- A. A review of an architecture project against established criteria and business objectives
- B. A review of the plans for enterprise transformation
- C. A review of the ability to share information and services
- D. A review of the readiness of an organization to accept change
- E. A review to highlight the shortfall between baseline and target architectures

Answer: A

Question: 230

Complete the sentence. The Architecture Landscape is divided into three levels, Capability, Segment, and .

- A. Baseline
- B. Solution
- C. Strategic
- D. Target
- E. Transition

Answer: C

Question: 231

Which of the following is a re-usable artifact that is used to create architecture models addressing stakeholder concerns?

- A. Catalog
- B. Matrix
- C. Diagram
- D. View
- E. Viewpoint

Answer: E

Question: 232

Complete the sentence. TOGAF describes the role of an Architecture Contract as .

- A. an agreement between development partners and sponsors on the architecture deliverables
- B. a plan to ensure that architecture information is communicated to the right stakeholders at the right

time

- C. a set of general rules and guidelines to support development of the enterprise architecture
- D. a timeline showing progression from the Baseline Architecture to the Target Architecture

Answer: A

Question: 233

Which of the following does TOGAF describe as "the structure of components, their interrelationships, and the principles guiding their design and evolution over time"?

- A. View
- B. Artifact
- C. Model
- D. Deliverable
- E. Architecture

Answer: E

Question: 234

Which part of TOGAF describes a step-by-step approach to developing an enterprise architecture?

- A. ADM Guidelines and Techniques
- B. Architecture Capability Framework
- C. Architecture Content Framework
- D. Architecture Development Method
- E. Enterprise Continuum & Tools

Answer: D

Question: 235

Which of the following does TOGAF provide as a set of reference materials for establishing an architecture function within an organization?

- A. Architecture Content Framework
- B. Technical Reference Model
- C. Integrated Information Infrastructure Reference Model
- D. Architecture Development Method
- E. Architecture Capability Framework

Answer: E

Question: 236

Which of the TOGAF architecture development phases is the first phase of an architecture development cycle,

defines the scope for an engagement and identifies the stakeholders?

- A. Architecture Change Management
- B. Architecture Vision
- C. Business Architecture
- D. Preliminary Phase
- E. Technology Architecture

Answer: B

Question: 237

Complete the sentence. According to the TOGAF document, a _____ system from the perspective of a related set of _____

_____ is a representation of a _____

- A. viewpoint, views
- B. viewpoint, stakeholders
- C. view, concerns
- D. view, stakeholders

E. view, requirements

Answer: C

Question: 238

What ADM phase defines the scope for the architecture development initiative and identifies the stakeholders?

- A. Requirements Management
- B. Phase D: Technology Architecture
- C. Preliminary Phase
- D. Phase A: Architecture Vision
- E. Phase B: Business Architecture

Answer: D

Question: 239

What is the first step in the architecture development Phases B, C, and D?

- A. Develop Baseline Architecture Description
- B. Select reference models, viewpoints and tools
- C. Perform gap analysis
- D. Resolve impacts across the Architecture Landscape
- E. Conduct formal stakeholder review

Answer: B

Question: 240

TOGAF Part VII describes how the ADM can be used to establish an Architecture Capability in an organization. Which architecture would describe the architecture processes and organization structure?

- A. Technology Architecture
- B. Data Architecture
- C. Business Architecture
- D. Transition Architecture
- E. Application Architecture

Answer: C

Question: 241

Which one of the following is considered a relevant architecture resource in ADM Phase D?

- A. Existing application models
- B. Generic business models relevant to the organization's industry sector
- C. Existing IT services
- D. Generic data models relevant to the organization's industry sector

Answer: C

Question: 242

What part of the TOGAF document discusses the processes, skills and roles to operate an architecture function within an enterprise?

- A. TOGAF Reference Models
- B. Architecture Content Framework
- C. Architecture Capability Framework
- D. Enterprise Continuum & Tools
- E. Architecture Development Method

Answer: C

Question: 243

Which of the following terms is defined as the key interests that are crucially important to the stakeholders in a system?

- A. Viewpoints
- B. Concerns
- C. Requirements
- D. Principles
- E. Views

Answer: B

Question: 244

What are the four architecture domains that the TOGAF standard deals with?

- A. Capability, Segment, Enterprise, Federated
- B. Business, Data, Application, Technology
- C. Application, Data, Information, Knowledge
- D. Process, Organization, Strategic, Requirements
- E. Baseline, Candidate, Transition, Target

Answer: B

Question: 245

What ADM phase includes establishing the Architecture Capability and definition of Architecture Principles?

- A. Phase C: Data Architecture
- B. Preliminary Phase
- C. Phase A: Architecture Vision
- D. Phase F: Migration Planning
- E. Phase B: Business Architecture

Answer: B

Question: 246

In which part of the ADM cycle do the earliest building block definitions start as abstract entities?

- A. Phases E and F
- B. Preliminary Phase
- C. Phase B, C, and D
- D. Phase G and H
- E. Phase A

Answer: E

Question: 247

What is an objective of the ADM Preliminary Phase?

- A. To create the initial version of the Architecture Roadmap
- B. To develop a vision of the business value to be delivered by the proposed enterprise architecture
- C. To select and implement tools to support the Architecture Capability
- D. To obtain approval for the Statement of Architecture Work
- E. To document the baseline architecture

Answer: C

Question: 248

What is an objective of ADM Phase G, Implementation Governance?

- A. To ensure that implementation projects conform with the Target Architecture
- B. To ensure that the enterprise's Architecture Capability meets current requirements
- C. To assess the performance of the architecture and make recommendations for change
- D. To establish the value realization process
- E. To prioritise the projects through risk validation

Answer: A

Question: 249

What are considered as generic Building Blocks in the Solutions Continuum?

- A. Common Systems Solutions
- B. Strategic Solutions
- C. Industry Solutions
- D. Organization-Specific Solutions
- E. Foundation Solutions

Answer: E

Question: 250

What version number does the TOGAF ADM use to indicate that a high-level outline of the architecture is in place?

- A. Version 0.5
- B. Version 0.7
- C. Version 1.0
- D. Version 0.1
- E. Version 0.9

Answer: D

Question: 251

In which ADM Phase is the focus the creation of an Implementation and Migration Plan in cooperation with the portfolio and project managers?

A. Phase A B. Phase F C. Phase D D. Phase G E. Phase E

Answer: B

Question: 252

What level of risk is the risk categorization prior to determining and implementing mitigating actions?

- A. Marginal
- B. Residual
- C. Low
- D. Initial
- E. Critical

Answer: D

Question: 253

Complete the sentence. The major information areas managed by a governance repository should include

- A. Common Systems Solutions, Organization-Specific Solutions and Industry Solutions
- B. Catalogs, Matrices and Diagrams
- C. Artifacts, Best Practices and Standards
- D. Audit Information, Process Status and Reference Data
- E. Capability, Segment, and Transition Architectures

Answer: D

Question: 254

Which one of the following best describes the purpose of a Change Request?

- A. To act as a deliverable container for artifacts created during a project
- B. To ensure that the results of a Compliance Assessment are distributed to the Architecture Board
- C. To request a dispensation or to kick-start a further cycle of architecture work
- D. To ensure that information is communicated to the right stakeholders at the right time
- E. To review project progress and ensure the implementation is inline with the objectives

Answer: C

Question: 255

Complete the sentence. In the TOGAF Architecture Content Framework, a work product that shows the relationship between things is known as a

- A. deliverable
- B. matrix
- C. building block
- D. diagram
- E. catalog

Answer: B

Question: 256

Within the Architecture Repository, what does the class of information known as the Architecture Capability include?

- A. Parameters, structures, and processes to support governance of the repository
- B. Specifications to which architectures must conform
- C. The organization specific architecture framework, including a method for architecture development and a metamodel for architecture content
- D. A record of the governance activity across the enterprise
- E. Patterns, templates, and guidelines used to create new architectures

Answer: A

Question: 257

What are the levels of the Architecture Landscape?

- A. Foundation, Common and Solution Architectures
- B. Business, Data, Applications and Technology Architectures
- C. Capability, Segment and Strategic Architectures
- D. Corporate EA, Project Team and Portfolio Team Architectures
- E. Baseline, Transition and Target Architectures

Answer: C

Question: 258

In which ADM phase does the value and change management process determine the circumstances under

which the Architecture Development Cycle will be initiated to develop a new architecture?

- A. Phase H
- B. Phase F
- C. Phase E
- D. Preliminary Phase
- E. Phase G

Answer: A

Question: 259

Which of the following best describes Requirements Management within the TOGAF ADM?

- A. Reviewing business requirements
- B. Addressing and prioritizing architecture requirements
- C. Developing requirements that deliver business value
- D. Validating requirements between ADM phases
- E. Managing architecture requirements throughout the ADM cycle

Answer: E

Question: 260

Which of the following best describes the purpose of the Architecture Requirements Specification?

- A. It is sent from the sponsor and triggers the start of an architecture development cycle
- B. It provides a list of work packages and a schedule for implementation of the target architecture
- C. It defines the scope and approach to complete an architecture project
- D. It provides a set of statements that outline what a project must do to comply with the architecture
- E. It contains an assessment of the current architecture requirements.

Answer: D

Question: 261

Complete the sentence. A set of architecture principles that cover every situation perceived meets the recommended criteria of

- A. stability
- B. robustness
- C. understandability
- D. completeness
- E. consistency

Answer: D

Question: 262

What is part of the approach in the ADM Preliminary Phase?

- A. Developing an Architecture Contract
- B. Extending the business scenario with business modeling
- C. Preparing a consolidated Gap Analysis
- D. Defining the enterprise
- E. Creating the Architecture Vision deliverable

Answer: D

Question: 263

Which of the following is a responsibility of an Architecture Board?

- A. Identifying the Lead Enterprise Architect to manage an architecture compliance review
- B. Conducting assessments of the maturity level of architecture discipline within the organization
- C. Establishing targets for re-use of components
- D. Creating the Statement of Architecture Work
- E. Allocating resources for architecture projects

Answer: C

Question: 264

According to TOGAF, which of the following best describes an Architecture Pattern?

- A. A detailed description of the interfaces between building blocks
- B. A way to identify combinations of building blocks that have been proven to deliver solutions
- C. A package of functionality defined to meet the business needs the organization
- D. A work product describing an aspect of an architecture
- E. An implementation specific solution building block

Answer: B

Question: 265

Which of the following are interests important to the stakeholders in a system?

- A. Requirements

- B. Principles
- C. Concerns
- D. Architecture viewpoints
- E. Architecture views

Answer: C

Question: 266

An ADM cycle can be used to establish an Architecture Capability within an organization. Which architecture produced in such a cycle would describe the architecture processes and organization structure?

- A. Technology Architecture
- B. Data Architecture
- C. Application Architecture
- D. Business Architecture

Answer: D

Question: 267

Which does TOGAF standard define as “the structure of components, their inter-relationships, and the principles guiding their design and evolution over time”?

- A. An architecture view
- B. An artifact
- C. An architecture
- D. A deliverable
- E. A model

Answer: C

Question: 268

Which of the following describes the practice by which the enterprise architecture is managed and controlled at an enterprise-wide level?

- A. Architecture governance
- B. Corporate governance
- C. IT governance
- D. Technology governance
- E. Portfolio governance

Answer: A

Question: 269

According to the TOGAF standard, why is Business Architecture recommended to be first architecture developed?

- A. It contains a high level description of the business strategy for the organization
- B. It is the key document describing how the new architecture capability will meet the business goals
- C. It provides prerequisite knowledge for undertaking work in the other architecture domains
- D. It mobilizes operations to support the ongoing business architecture development
- E. It includes preparation activities such as customization of the method

Answer: C

Question: 270

Which of the following best describes the TOGAF Architecture Development Method?

- A. A method for creating an Architecture Repository
- B. A method for managing architecture requirements
- C. A method for controlling change at an enterprise-wide level
- D. A method for classifying architectures and solutions
- E. A method for developing an organization-specific architecture

Answer: E

Question: 271

Which of the following best describes an You review the applicable Architecture Contract for each location, ensuring that it addresses the project objectives, effectiveness metrics, acceptance criteria, and risk management. In cases where the contract is issued to an external party, you ensure that it is a legally enforceable contract. tectural change categorized as a re-architecting change?

- A. A change to re-align with the business strategy.
- B. A change to derive additional value from the existing investment.
- C. A change to reduce costs.
- D. A change to increase investment in order to create new value for exploitation.

Answer: A

Question: 272

Complete the sentence. The Architecture Landscape is divided into levels, Strategic Architectures,

- A. Baseline Architectures, and To Be Architectures
- B. Segment Architectures, and Capability Architectures
- C. Gap Architectures, and target Architectures
- D. Solution Architectures, and Corporate Architectures
- E. Transitional Architectures, and Incremental Architectures

Answer: B

Question: 273

Complete the sentence. Actions arising from the Business Transformation Readiness Assessment technique should be incorporated in the .

- A. Architecture Roadmap
- B. Architecture Requirements Specification
- C. Communications Plan
- D. Implementation and Migration Plan
- E. Implementation Governance Model

Answer: D

Question: 274

According to the TOGAF standard, which of the following define general rules and guidelines for the use of resources across the enterprise?

- A. Procurement policies
- B. Business scenarios
- C. Functional Requirements
- D. Stakeholder concerns
- E. Architecture principles

Answer: E

Question: 275

Complete the sentence. A good set of architecture principles that cover every situation perceived throughout the enterprise meet the recommended criteria of

- A. robustness
- B. consistency
- C. completeness
- D. stability
- E. understandability

Answer: C

Question: 276

Which of the following best describes the purpose of the Architecture Definition Document?

- A. To ensure that architecture information is communicated to the right stakeholders at the right time
- B. To provide a high-level view of the end architecture product
- C. To govern the architecture throughout its implementation process
- D. To act as a deliverable container for artifacts created during a project
- E. To show progression of change from the Baseline Architecture to the Target Architecture

Answer: D

Question: 277

Which of the following best describes the need for the ADM process to be governed?

- A. To build a top-down, all inclusive architecture description
- B. To enable a fast response to market changes
- C. To verify that the method is being applied correctly
- D. To permit the architecture domains to be integrated
- E. To enable development of reference architectures

Answer: D

Question: 278

During a TOGAF ADM cycle, an architecture is denoted as Version 1.0. What does this indicate?

- A. A high-level outline architecture
- B. A formally reviewed, preliminary architecture
- C. A draft, detailed architecture
- D. A formally reviewed, detailed architecture
- E. A preliminary outline architecture

Answer: D

Question: 279

Complete the sentence. Two of the four architecture domains that are subsets of an overall Enterprise Architecture are Business and Technology, the other two are Application and

- A. Data
- B. Capability
- C. Segment
- D. Transition
- E. Vision

Answer: A

Question: 280

What does the TOGAF standard provide to guide architectural activity within the enterprise in terms of structures, roles, responsibilities, and processes?

- A. Architecture Development Method
- B. Architecture Content Framework
- C. Architecture Capability Framework
- D. Enterprise Continuum

Answer: D

Question: 281

Which part of the TOGAF standard provides a full description of each architecture phase?

- A. ADM Guidelines and Techniques
- B. Architecture Capability Framework
- C. Enterprise Continuum & Tools
- D. Architecture Development Method

Answer: D

Question: 282

What ADM Phase generates the initial complete version of the Architecture Roadmap?

- A. Phase A: Architecture Vision
- B. Phase D: Technology Architecture
- C. Phase F: Migration Planning
- D. Phase E: Opportunities and Solutions
- E. Phase B: Business Architecture

Answer: D

Question: 283

According to the TOGAF standard, what term describes an individual with an interest in a system?

- A. stakeholder
- B. sponsor
- C. consumer
- D. lead architect

Answer: A

Question: 284

Which of the following best describes the Standards Information Base?

- A. A repository area that lists the set of specifications to which architectures must conform
- B. A repository area that describes the organization specific architecture framework and method.
- C. A repository area that defines the parameters, structures, and processes to support governance
- D. A repository area that provides guidelines, templates, and patterns used to create new architectures
- E. A repository area that provides a record of the governance activity across the enterprise

Answer: A

Question: 285

Which of the following statements best describes the Requirements management process?

- A. The development of requirements that deliver business value
- B. The management of architecture requirements throughout the ADM cycle
- C. The review of business requirements within the TOGAF ADM
- D. The prioritization and disposal of architecture requirements

E. The development of requirements for ADM Phase A.

Answer: B

Question: 286

Complete the sentence. Capability-Based Planning is a technique that

- A. identifies services to be shared
- B. focuses on business outcomes
- C. ensures business information is communicated to the right people at the right time
- D. ensures the application of business best practices
- E. ensures timely solutions

Answer: B

Question: 287

Which of the following types of architecture defines technology standards for building blocks and reflects general computing requirements?

- A. Industry Architecture
- B. Foundation Architecture
- C. Transition Architecture
- D. Common Systems Architecture
- E. Organization-Specific Architecture

Answer: B

Question: 288

In which phase of the ADM cycle do building blocks become implementation-specific?

- A. Opportunities and Solutions
- B. Business Architecture
- C. Data Architecture
- D. Architecture Vision

E. Technology Architecture

Answer: A

Question: 289

Which of the following does the TOGAF ADM recommend for use in developing an Architecture Vision document?

- A. Business Scenarios
- B. Gap Analysis
- C. Interoperability Analysis
- D. Requirements Management
- E. Architecture Principles

Answer: E

Question: 290

Which of the following does the TOGAF standard classify as catalogs, matrices and diagrams?

- A. Building Blocks
- B. Application Platform Interfaces
- C. Deliverables
- D. Frameworks
- E. Artifacts

Answer: E

Question: 291

What does the TOGAF standard describe as a structure which can be used for developing a broad range of architectures?

- A. Metamodel
- B. Architecture Viewpoint
- C. Work Package
- D. Architecture Framework
- E. Deliverable

Answer: D

Question: 292

In Phase D of the ADM cycle, if you are following the order of the steps defined and the current is to perform gap analysis, what is the next step?

- A. Resolve impacts across the Architecture Landscape
- B. Define candidate roadmap components
- C. Conduct formal stakeholder review
- D. Create Architecture Definition Document
- E. Develop Architecture Definition Document
- F. Develop Baseline Architecture

Answer: B

Question: 293

Which of the following is the representation of a related set of concerns?

- A. Architecture viewpoint
- B. Diagram
- C. Catalog
- D. Matrix
- E. Architecture view

Answer: E

Question: 294

Which of the following best describes the purpose of the Architecture Roadmap?

- A. It provides for effective communication of the end architecture project to the stakeholders
- B. It is sent from the sponsor and triggers the start of an architecture development cycle
- C. It contains an assessment of the current architecture requirements
- D. It lists work packages on a timeline showing progress towards the Target Architecture
- E. It forms the basis of a contractual agreement between the sponsor and the architecture organization

Answer: D
